

# Canadian Piano Music Graded Syllabus

from

## Debra Wanless Music

### 2020

Most conservatories and festivals now encourage 'own choice' categories within examination and festival programs. *Debra Wanless Music* has made these selections easy for everyone by creating a graded piano syllabus of our current titles.

In addition to grading our current titles, a code has been provided for each title indicating the style(s) for quick reference when making repertoire selections.

*Debra Wanless Music* also offers a chart form catalogue which includes titles, sources, levels, composers/arrangers, keys, metres, styles, with pedagogical and technical comments. This chart form listing is organized by themes to assist with the selection of works for specific interests and even themed recitals. It also offers excellent pedagogical information for both new and experienced educators.
