

# HEATING & SERVING PROCEDURES FOR STATE FAIR MINI DONUTS

1. Turn oven and allow a couple of minutes for the oven to heat.
2. Oven operates at 550° degrees Fahrenheit (Factory Set)

1. Set Speed Setting between 6 and 7
  - a. Donuts will pass through oven in 30 to 35 seconds.
  - b. By continuously feeding oven 4 donuts per row, the oven can produce 1200 donuts per hour.
2. Place slacked donuts onto conveyor of oven using tongs.
3. When donuts complete the re-therm heating process, remove with Tongs and place in bag.
4. Squeeze one of the five flavored sugars into the bag, shake and serve.
