As one of the broadest-ranging craft breweries in the country, we can't skip past our extensive Mixed Culture program. It's a true adventure in flavour, complexity, and experimentation. Using a blend of wild yeast strains, bacteria, and other microorganisms, the brewers at Deeds create beers that are both refreshing and full of character. As the beer ferments and ages in oak barrels, the flavours develop and evolve, creating unique taste profiles that are truly one-of-a-kind. Each beer is a journey in and of itself, with a story to tell and a flavour to savour
