Benefits of Crion Varsity Internships

Crion Varsity's Job Shadow Internship		Real Industry Internship	
—	You will join a virtual company with a realistic project and observe professionals of that company for 1 month for training and short term job experience	—	You will join a real company for short term like 1 month to 6 months and work with them like a temporary job
✓	The mentors focus is to provide a great experience to the intern and let them have the best learning experience and understanding of the industry scenario	✗	The mentor an intern gets may or may not be the best in guiding him or her on the best path. For example, the mentor might be busy and not focus on the intern to guide them
✗	At Crion Varsity's shadow Internship, interns can only interact with the key role person in group sessions	✓	Can get to interact with different people in the company
✓	Observe office meetings of professionals and learn how they work	✗	Chance to Observe office meetings is not available always
✓	Start fresh from project beginning and understand how industry works to complete the project	✗	When a student joins internship, the industry project might be ongoing, so intern may find it difficult to understand the full scope of the project
✓	Industry data is made available to student after receiving permissions to understand the true conditions	✗	Industry data is most of the times not shared to interns for confidentiality reasons
—	Crion Varsity's Job Shadow Internship is a Certified Training + Experience delivering program with outcome of Project readiness, Professional Communication improvement and Skills improvement which has a program fees	—	Intern might or might not get paid. Sometimes the Industry charges the student for Internship experience (As per AICTE Internship policy norms), like Inplant training, etc...

Upon completion of program, students earn

Certificate of Internship

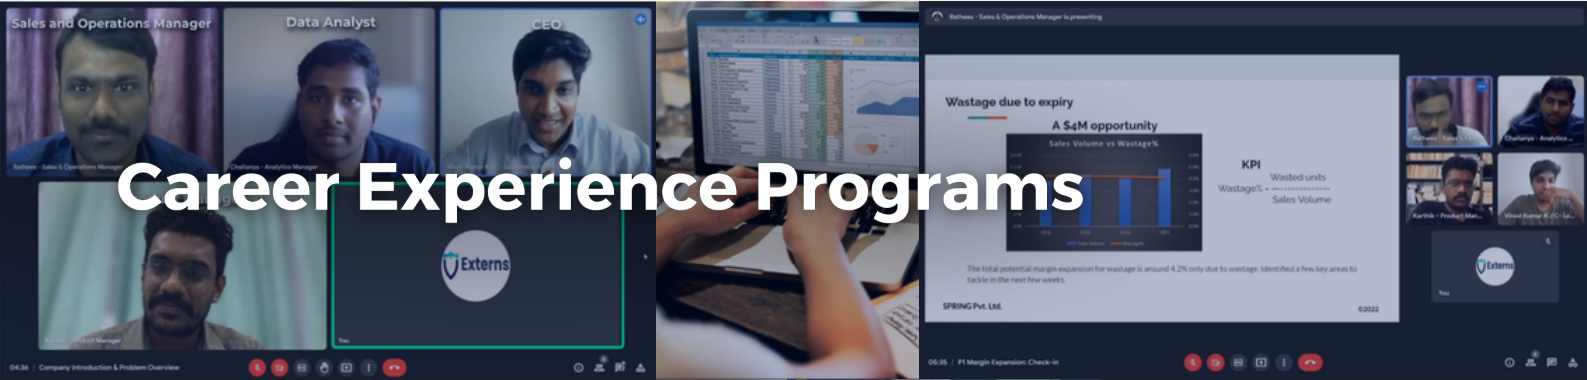

in Data Analytics Carer Trial Experience and Professional Communication
