A Little Background

The Survival Squad Pet First Aid Kit has been designed specifically for pet owners, by pet owners.

The contents of this Pet First Aid Kit can assist pet owners in most emergency situations their pets might find themselves in, whilst they're camping, hiking, or out and about.

Important note: The Survival Squad Pet First Aid Kit isn't designed to replace the need for your pet to seek medical aid in an emergency.

You should always seek professional help from a qualified veterinarian in an emergency.
