KROOL PTY. LIMITED

JEWELS

Print this puppy out on A4 and try your damn best to cut out the little circles or this thing to the left, maybe use a scalpel if you got one i dont know just figure it out and try the bastard on before you buy if you dont know your size. I love my customers but apparently people love getting their size wrong. If you get it wrong its not a big issue i do free return for resizing but you know, a mans got stuff to do and resizing rings all day is heaps less exciting then all the extreme sports i do and charity work and helping fix the environment etc. So unless you want the world to die get your size right
