Charge Your Apple Devices

32W of Convenience

If you love Apple devices, you'll also find plenty to love about ALOGIC's 2 Port 32W GaN Charger. The charger's dual-ports are locked and loaded with all the zing you need to bump your suite of Apple iPhone, iPad and MacBook Air device batteries all the way up on even their busiest days. For the easy way to keep your Apple devices in the green, just plug them in.

Universal Compatibility

USB-C Charger for Modern Devices

Traditional chargers do their best work with specific devices. ALOGIC's 2 Port 32W GaN Charger isn't a traditional charger. Boasting USB-C Power Delivery technology, it's a one-stop fast-charging source for all your favourite USB-C devices. Power your smartphones, tablets and other everyday devices. Plug in your MacBook Air or other ultra-portables in isolation for up to 30W of power. Your new charger can even restore a half-empty iPhone 12 battery to full in 30 minutes.

Compact & Portable

There's no need for multiple chargers when you have ALOGIC's 2 Port 32W GaN Charger in your wall. At half the size of traditional chargers, it's delightfully portable too.

Slip it into your laptop bag when you need an ultra-lightweight ally for fast power outside the office or away from home.

Two Smart Ports

Charge More Devices at Once

The 2 Port 32W GaN Charger's dual USB-C ports power multiple battery-hungry devices concurrently.

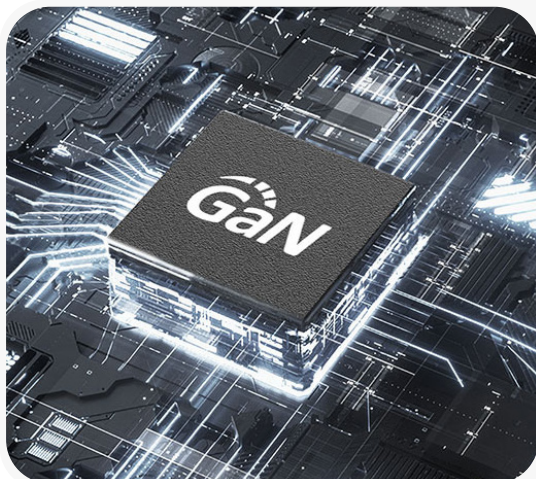

High Speed Charging

Up to 30W PD

The charger delivers up to 30W charging power when you plug popular devices like MacBook Air, iPad Pro/Air and Nintendo Switch into the USB-C port *.

*With your devices plugged into both ports, the USB-C port delivers 20W (instead of 30W with one device connected) and the USB-A provides 12W (instead of 18W with one device connected).

GaN Technology

A Next-Gen Charging Force

The ALOGIC Rapid Power USB-C Charger incorporates GaN "Gallium Nitride", a next-generation semiconductor that replaces silicon and enables very high energy & power in a very small compact & portable size. The 32W GaN charger lets you charge any USB-C equipped devices such as laptops, tablets and phones etc simultaneously at the highest possible speed.

Interface

Input	100-240VAC 50~60Hz 1.0A Max
