**MANAGEMENT DISCUSSION AND ANALYSIS REPORT****Industry Structure and Development**

Plastic industry makes significant contribution to the economic development and growth of various key sectors in the country such as automotive, construction, electronics, healthcare, textiles, and FMCG. Government initiatives such as Make in India, Skill India, Digital India, Swachh Bharat Abhiyan, etc., are opening up opportunities for accelerated growth in the plastics industry, as the industry is contributing in a big way in the success of these programs. Indian plastics industry is emerging as one of the fastest growing global markets with 12% growth rate. By 2020, plastics consumption of the country is expected to increase from the current 12 million metric tonnes per annum (MMTPA) to 20 MMTPA. However the recent regulatory changes being announced by various Government authorities restricting the use of plastic may impact the growth of the industry.

With Government initiatives, the year 2017-2018 has been an eventful year overall for the Indian Economy with long awaited nationwide rollout of GST. Disruptions and anxiety due to perceptions, certain lack of clarity and overall adaptation of HSN based tax rates, though affected the Business in 2nd/ 3rd quarter, have now been overcome and settled. While other measures of the Government, namely, the enactment of the Real Estate (Regulation and Development) Act, 2016 (RERA) and implementation of the Insolvency and Bankruptcy Code, 2016 (IBC) shall play a positive role for the economy over a period of time. The Indian economy is poised to grow at a rate of 7% in 2018-2019, after an estimated 6.6% growth in 2017-2018.

The growth in Company's business is primarily attributed to its continuing focus on increasing its distribution set up and delivering high quality product and service to its customers.

Opportunities and Threats

Plastics are used in the majority of daily usage items like housing, construction, furniture, automobiles, household items, agriculture, irrigation, packaging, electronics etc. Changing life style, urbanization are pushing FMCG, construction sectors to use plastics in new innovative ways thus increasing the penetration of plastic usage in new areas of our daily lives. The Company's opportunities lie with its penetrating distribution networks, and plants located in all 4 zones (Mahad-Maharashtra, Jigani-Karnataka, Baddi- Himachal Pradesh, Pant Nagar – Uttaranchal and Guwahati- Assam) which enable timely supply and competitive pricing.

As consumer tastes evolve, PearlPET matches it up with innovative products. Company has launched new product such as Zing Bottles and has created a new brand named "Procasa" which are basically cooper bottles.

However, despite having a good growth potential, the plastic processing industry faces many challenges in terms of environmental myths, lack of advanced technology, limited infrastructure, and high volatility in feedstock prices. Like any other Company, your Company is also exposed to various threats like competition from small players, retention of employees, labor unrest, increase in raw material prices and other input costs etc. The presence of unorganized players poses the risk of unethical practices, which leads to plagiarism of products, which may look similar, but is of poor quality. Precautions and required measures are taken to curb these setbacks through channelized sources. To overcome these challenges, significant efforts will have to be made by all the stakeholders also to realize the real potential of this industry.

Operations and Financial Review

The operations and financial review is covered in the Board's Report and is to be read as a part of this report itself.

Segment-Wise Performance

Your Company is operating only in one segment.

Risk Management

The Company is also exposed to several potential risks both from internal and external sources. By addressing the risk in its nascent stages allows for long-term corporate success. Risks such as industry segment risks, technological changes, political risks, product distribution and supply can be anticipated and curbed.

Your Company believes that our products should be safe for everyone to use. All manufacturing and warehousing is conducted in a hygienic and controlled environment and all our plants are ISO certified. Our products are made of virgin plastics which are universally approved by USFDA, EU Directive 2002/72/EC, BIS IS: 12252 -1987 and other regulating bodies for Food, Beverage and Water storage.

Disclosure of Accounting Treatment

The Financial Statements have been prepared in accordance with the Companies (Indian Accounting Standard) Rules, 2015 (Ind AS) prescribed under Section 133 of Companies Act, 2013 and other recognized accounting practices and policies to the extent applicable. Beginning April 01, 2017, the Company has for the first time adopted Ind AS with a transition date of April 01, 2016.

Business Outlook

Plastics are emerging as wonder material for modern society with its versatile applicability, adherence to regulatory standards and better aesthetic value addition to end products. Plastics are changing the way in which we are living our everyday lives. Utility of plastics as alternative materials in replacement of traditional materials are increasingly being explored in various areas due to different benefits offered by its use like light weights, high strength, reusability etc. However there is need for efficient collection and recycling system to ensure minimal environment impact.

With the Government's current campaign on 'Make in India' which aims to turn India into a global manufacturing hub, a tremendous growth is expected in the plastic processing industry in the coming years.

Internal Control Systems and their Adequacy of Internal Financial Controls with reference to the financial statements

The Company has in place adequate internal financial controls with reference to financial statements. During the year under review, no material weakness in the policy or procedures was observed. Your Company has put in place an independent internal audit system conducted by a professional firm that conducts regular audits to ensure adequacy of internal financial control system, adherence to Company policies and compliance.

**Annexure 'I'****A. CONSERVATION OF ENERGY****I. the steps taken or impact on conservation of energy;**

Energy conservation through continuous improvement is given top most priority at our office and production units. In our endeavor of making our production facilities more energy efficient, following steps have been taken during review year:

- (i) Recently we have procured one state of art 'ASB 12 M' machine at Pantnagar. This machine is capable of producing wide range of bigger neck ID product at much lesser processing cost in comparison to existing fleet of machine. Presence of this machine will help us in creating series of wide mouth containers for pickle, spice and honey market.
- (ii) One technically advanced injection moulding machine has been installed at our Baddi unit for production of preform and other injection molded articles, this machine provides best in class energy efficiency. As a policy decision all the new equipments purchased across the Company will have 05 star energy efficiency ratings.
- (iii) The average power factor of all the units is being maintained at 0.99 or above with the help of automatic power factor analyzer and corrector. We get a good amount of rebate in power bill for maintaining such good power factor.
- (iv) State electricity boards are charging different tariffs for different time of usage. Tariffs during peak hours are maximum and minimum at night hours. We are planning maximum production on machines in night hours to take advantage of minimum tariff. We are also planning to optimize plant sanctioned load to reduce fixed charges in electricity bills.
- (v) Further, we are planning conveyors for shifting finished goods from one place to the other such as from ground floor to first floor and vice versa. These conveyors once installed will provide a large amount of reduction in labor usage.
- (vi) In view of depleting underground water table and shrinking fresh water resources, we are focusing our attention to waterless cooling towers. These towers will not only save precious water but also improve equipment service life by reducing maintenance activities required such as decaling, heat exchanger cleaning, water treatment etc.

II. the steps taken by the Company for utilizing alternate sources of energy;

We are about to start buying electrical power from power exchange (Solar and wind power) for our factories. All the necessary metering components are already in place. The expected saving will be in tune of 10% on total power bill.

III. the capital investment on energy conservation equipments;

We have invested significant amount of funds in creating infrastructure for buying power from power exchange. We are also incurring significant amount on modernization of our machine and utility equipments.

B. TECHNOLOGY ABSORPTION**I. The efforts made towards technology absorption;**

- (i) In this review period we have switched our operations to a new more sophisticated ERP system (SAFAL). In this new ERP system all the concerned departments such as Planning, Development, Marketing, Production, Maintenance and Commercial will work on a single platform which will minimize chances of errors as well as enhance accuracy and authenticity of data exchanged, thereby increasing productivity and reducing the turnaround time.
- (ii) We are working on marketing of different products for house hold applications. Recently we have launched stainless steel water bottles in different sizes and shapes. These new products are getting overwhelming response from market.
- (iii) We are actively working on concept of centralized RM conveying and distribution system. Once implemented this concept will save lots of manpower as well as reduce issues related to handling of RM.

II. The benefits derived like product improvement, cost reduction, product development or import substitution;

Tariff hike and manpower will reduced cost to a minimum by adopting above steps.

III. In case of imported technology (imported during the last three years reckoned from the beginning of the financial year);

The Company has not imported any technology during the last three years.

IV. The expenditure incurred on Research and Development;

To reduce our rejection levels and to improve customer satisfaction level, we have invested in new technology machinery/moulds. We have started using new ERP system. We are also planning to install cloud based equipment monitoring system at all units to enhance machine's OEE.

C. FOREIGN EXCHANGE EARNINGS AND OUTGO

The Company has recorded export earnings of Rs. 27.67 Lakhs whereas value of import payments towards raw material and capital goods amount to Rs. 2409.56 Lakhs, details of which have been incorporated in note no. 40 to 43 to the Notes to financial statements.

**INDEPENDENT AUDITOR'S REPORT**

To

**THE MEMBERS OF
M/s PEARL POLYMERS LTD.
A-97/2, Industrial Area, Phase-II,
Okhla, New Delhi-110020**

Dear Sir,

We have audited the accompanying financial statements of **M/S PEARL POLYMERS LTD. ("the Company")**, which comprise the Balance Sheet as at **March 31, 2018**, and the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year then ended and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the Indian Accounting Standards (Ind AS) prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, and other accounting principles generally accepted in India.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. In conducting our audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder and the Order issued under section 143(11) of the Act.

We conducted our audit of the financial statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statement.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2018, and its profit, total comprehensive income, the changes in equity and its cash flows for the year ended on that date.

Report on Other Legal and Regulatory Requirements

**Annexure - B to the Auditors' Report**

(Referred to in paragraph 2(f) under 'Report on Other Legal and Regulatory Requirements' section of our report to the Members of Pearl Polymers Limited of even date)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013

We have audited the internal financial controls over financial reporting of **M/s Pearl Polymers Limited ("the Company")** as of 31 March 2018 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Board of Directors of the Company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- 1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- 2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- 3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

**NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2018****1. COMPANY OVERVIEW**

Pearl Polymers Limited is a listed company incorporated and domiciled in India and has its principal place of business at A-97/2, Okhla Industrial Area, Phase-II, New Delhi-110020. The Company is listed on Bombay Stock Exchange (BSE) and National Stock Exchange (NSE). The principal business of the company is manufacturing and trading of PET Jars and Bottles. The financial statements are approved for issue by the company's board of directors on **May 29, 2018**.

2. SIGNIFICANT ACCOUNTING POLICIES**I. Basis of preparation and presentation of financial statements****A. Basis of preparation of financial statements**

These financial statements have been prepared and presented on a going concern basis under the historical cost convention (except those revalued), on the accrual basis of accounting and comply with the Indian Accounting Standards prescribed by Section 133 of the Companies Act, 2013 ('the Act') read with Rule 7 of the Companies (Accounts) Rules, 2014, other pronouncements of the Institute of Chartered Accountants of India, guidelines issued by Securities and exchange board of India (SEBI) and the relevant provisions of the Companies Act, 2013/ Companies Act, 1956, as adopted consistently by the Company.

B. Statement of compliance with Ind-As

1. The financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind-AS) prescribed under Section 133 of the Companies Act, 2013 read with relevant rules notified till date of financial statements, to the extent applicable for year ended 31st March 2017, the Company prepared its financial statements in accordance with accounting standards notified under section 133 of the Companies Act 2013, read together with paragraph 7 of the Companies (Accounts) Rules, 2014 i.e. Indian GAAP. These financial statements for the year ended 31st March 2018 are the first that Company has prepared in accordance with Ind-AS along with the comparative figures for the year ended 31st March 2017. Some of the Company's Ind-AS accounting policies used in the opening balance sheet are different from its previous GAAP policies applied as at 31st March, 2016, and accordingly the adjustments were made to restate the opening balances as per Ind-AS. The resulting adjustments arose from the events and transactions before the date of transition to Ind-AS. Therefore, as required by Ind-AS 101, those adjustments were recognized directly through retained earnings as at 1st April, 2016. This is the effect of the general rule of Ind-AS 101 which is to apply Ind-AS retrospectively.

C. Basis of Measurement

1. The financial statements have been prepared on a historical cost convention and on an accrual basis except for the defined benefit and other long-term employee benefits obligations and Investments measured at fair value through profit and loss (FVTPL)/ fair value through other comprehensive income (FVTOCI) that have been measured at fair value as required by relevant Ind-AS.

D. Use of Estimates and Judgments

The preparation of financial statements in conformity with Ind-AS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on a periodic basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected. In particular, information about significant areas of estimation, uncertainty and critical judgments in applying accounting policies that have the most significant effect on the amounts recognized in the standalone financial statements is included in the following notes:

- i. Income Taxes:** The Company's tax jurisdiction is India. Significant management judgment is required to determine the amount of deferred tax assets that can be recognized, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.
- ii. Provisions and Contingencies:** The assessments undertaken in recognizing the provisions and contingencies have been made in accordance with Ind-AS 37, 'Provisions, Contingent Liabilities and Assets'. The evaluation of the likelihood of the contingent events has required best judgment by management regarding the probability of exposure to potential loss. Should circumstances change following unforeseeable developments, this likelihood could after.
- iii. Post-Employment benefit plan:** Employee benefits obligations are measured on the basis of actuarial assumptions

which include mortality and withdrawal rates as well as assumptions concerning future developments in discount rates, the rate of salary increase and the inflation rate. The company considers that the assumptions used to measure its obligations are appropriate and documented. However, any changes in these assumptions may have a material impact on the resulting calculations.

- iv. **Other estimates:** The preparation of standalone financial statements involves estimates and assumptions that affect the reported amount of assets, liabilities, disclosure of contingent liabilities at the date of standalone financial statements and the reported amount of revenues and expenses for the reporting period. Specifically, the Company estimates the probability of collection of accounts receivable by analyzing historical payment patterns etc.

E. Functional and Presentation Currency

Items included in the standalone financial statements of the company are measured using Indian Rupee (Rs.) which is the functional currency of the company and the currency of the primary economic environment in which the entity operates. The presentation currency of the company is also Indian Rupee (Rs.) (rounded off to Rs. lakhs up to two decimals)

II. Summary of significant accounting policies

A. Financial Instruments

i. Financial Assets

Financial assets comprise investments in equity and debt instruments, mutual funds, security deposits, inter-corporate deposits, trade receivables, Cash and cash equivalents and other eligible assets.

Initial recognition and measurement

All financial assets are recognized initially at fair value. Transaction costs that are attributable to the acquisition of the financial asset (other than financial assets recorded at fair value through profit or loss) are included in the fair value of the financial assets. Purchase or sale of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognized on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

Subsequent Measurement

Financial Assets measured at amortized cost: Financial assets held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payment of principal and interest (SPPI) on principal amount outstanding are measured at amortized cost using effective interest rate (EIR) method. They are presented as current assets, except for those maturing later than 12 months after the reporting date which are presented as non-current assets. These financial assets are subsequently carried at amortized cost using the effective interest method, less any impairment loss. The EIR amortization is recognized as finance income in the Statement of Profit and Loss. Assets at amortized cost are represented by inter corporate deposits, trade receivables, security deposits, cash and cash equivalents and other eligible current and noncurrent financial assets.

- Financial assets at fair value through other comprehensive income (FVTOCI): Financial assets held within a business model whose objective is achieved by both collecting the contractual cash flows and selling the financial assets and the contractual terms of the financial assets give rise on specified dates to cash flows that are solely payment towards principal and interest (SPPI) on principal outstanding are subsequently measured at FVTOCI. Fair value movements in financial assets at FVTOCI are recognized in other comprehensive income. However, the Company recognizes interest income, impairment losses & reversals and foreign exchange gain loss in statement of profit and loss. On de-recognition of the asset, cumulative gain or loss previously recognized in OCI is reclassified from equity to profit and loss. Interest earned is recognized under the expected interest rate (EIR) model.
- Equity instruments other than investment in associates: The management determines at the initial recognition of investments in Equity instruments whether to measure it at FVTPL or FVTOCI. However, the equity instruments held for trading are always classified at fair value through Profit or Loss (FVTPL). The classification of investments at FVTOCI is irrevocable. Fair value changes on equity instruments at FVTOCI, excluding dividends, are recognized in other comprehensive income (OCI).
- Financial assets at fair value through Profit or Loss (FVTPL): Financial assets are measured at FVTPL if it does not meet the criteria for classification as measured at amortized cost or at fair value through other comprehensive income. Fair value changes are recognized in Statement of Profit and Loss.

De-recognition of financial assets

Financial assets are derecognized when the contractual rights to the cash flows from the financial assets expire

or the financial asset is transferred and the transfer qualified for de-recognition. On de-recognition of financial asset in its entirety the difference between the carrying amount (measured at the date of de-recognition) and the consideration received (including any new asset obtained less any new liability assumed) shall be recognized in Statement of Profit and Loss.

Impairment of financial assets

Trade receivables, contract assets, receivables under Ind-AS 109, investments in debt instruments that are carried at amortized cost, investments in debt instruments that are carried at FVTOCI are tested for impairment based on the expected credit losses (ECL) for the respective financial asset. ECL impairment loss allowance (or reversal) recognized during the period is recognized as income/expense in the Statement of Profit and Loss. The approach followed by the company for recognizing the impairment loss is given below:

- **Trade receivables**

An impairment analysis is performed at each reporting date. The expected credit losses over lifetime of the asset are estimated by adopting the simplified approach using a provision matrix which is based on historical loss rates reflecting current condition and forecasts of future economic conditions. The company estimates the following provision matrix at the reporting date:

Period past due	Default rate
0 to 1 year	0%
2 to 2 year	0%
More than 2 years	10%
More than 3 years	100%
Doubtful receivables	100%

- **Other financial assets**

For recognition of impairment loss on other financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL issued. If in subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognizing impairment loss allowance based on 12 month ECL.

ii. Financial liabilities

Financial liabilities comprise trade payables and other eligible liabilities.

Initial recognition and measurement

Financial liabilities are initially recognized at fair value. Any transaction costs that are attributable to the acquisition of the financial liabilities (except financial liabilities at fair value through profit or loss) are deducted from the fair value of financial liabilities.

Subsequent measurement

- **Financial liabilities at amortized cost:** The Company has classified the following under amortized cost:

- a) Trade payables
- b) Other eligible financial liabilities

Amortized cost for financial liabilities represents amount at which financial liability is measured at initial recognition minus the cumulative amortization using the effective interest rate (EIR) method of any difference between that initial amount and the maturity amount.

- **Financial liabilities at fair value through profit or loss (FVTPL):** Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term.

Financial liabilities designated upon initial recognition at fair value through profits or losses are designated as such at the initial date of recognition, and only if the criteria in Ind-AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risks are recognized in OCI. These gains/ loss

are not subsequently transferred to P&L. However, the company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognized in the statement of profit or loss. The company has not designated any financial liability as at fair value through profit and loss.

De-recognition of financial liabilities

A financial liability shall be de-recognized when, and only when, it is extinguished i.e. when the obligation specified in the contract is discharged or cancelled or expires.

iii. Off-setting of financial assets and financial liabilities:

Financial assets and liabilities are offset and the net amount is presented in the balance sheet and only when, the Company has a legal enforceable right to offset the recognized amounts and intends either to settle on a net basis or to realize the assets and settle the liability simultaneously.

iv. Reclassification of financial assets

The Company determines the classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are categorized as equity instruments at FVTOCI and financial assets or financial liabilities that are specifically designated at FVTPL. For financial assets, which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The management determines change in the business model as a result of external or internal changes which are significant to the Company's operations. A change in the business model occurs when the Company either begins or ceases to perform an activity that is significant to its operations. If the company reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of immediately next reporting period following the change in business model. The Company does not restate any previously recognized gains, losses (including impairment gains or losses) or interest.

B. Inventories

Inventories are valued as under:

C. Property, Plant and Equipment

Property, Plant and Equipment is carried at cost less accumulated depreciation and accumulated impairment losses. The cost comprises its purchase price, including import duties and other non-refundable taxes or levies and any directly attributable cost of bringing the asset to its working condition for its intended use; any trade discounts and rebates are deducted in arriving at the purchase price. Cost of self-constructed asset include the cost of material, direct labour and any other costs directly attributable to bringing the asset to its working condition for its intended use, and the costs of dismantling and removing the items and restoring the site on which they are located. Purchased software that is integral to the functionality of the related equipment is capitalized as part of the equipment.

Gains and losses on disposal of an item of Property, Plant and Equipment are determined by comparing the proceeds from disposal with the carrying amount of Property, Plant and Equipment and are recognized net within "Other income/ Other expenses" in the Statement of Profit and Loss.

The cost of property, plant and equipment not ready for intended use before such date are disclosed under capital work- in-progress.

Subsequent costs

The cost of replacing part of an item of Property, Plant and equipment is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Company and its cost can be measured reliably. The carrying amount of the replaced part is de-recognized. The costs of the day-to-day servicing of property, plant and equipment are recognized in the Statement of Profit and Loss.

Depreciation

Depreciation on property, plant & equipment is provided on pro-rata to the period of use, on the Straight Line Method rates worked out based on the useful life and in the manner prescribed in the Schedule II to the Companies Act, 2013.

The estimated useful lives of assets for the current and comparative period of significant items of property, plant and equipment are as follows:

Category	Useful life (Years)
Buildings	60
Furniture & Fixture	10
Plant & Machinery	15
Electrical Installation	10
Office Equipments	5
Computer	3
Vehicles	8

The company follows component approach as envisaged in Schedule II to the Companies Act, 2013. The approach involves identification of components of the asset whose cost is significant to the total cost of the asset and has useful life different from the useful life of the remaining assets and in respect of such identified components, useful life is determined separately from the useful life of the main asset.

Assets acquired under finance lease and leasehold improvements are amortized over the lower of estimated useful life and lease term.

Depreciation on additions is provided on a pro-rata basis from the month of acquisition/installation. Depreciation on sale/deduction from property, plant & equipment is provided for up to the date of sale/adjustment, as the case may be.

Modification or extension to an existing asset, which is of capital nature and which becomes an integral part thereof is depreciated prospectively over the remaining useful life of that asset.

The depreciation method, useful lives and residual value are reviewed at each of the reporting date.

D. Intangible assets

Intangible asset are carried at cost of acquisition less amortization. The cost of an item of intangible assets comprises its purchase price, including import duties and other non-refundable taxes or levies and any directly attributable cost of bringing the asset to its working condition for its intended use; any trade discounts and rebates are deducted in arriving at the purchase price.

Amortization of Intangible assets

Intangible assets are amortized on straight line method on pro-rata basis over a period of three years.

E. Investment property

Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any.

The cost includes the cost of replacing parts and borrowing costs for long-term construction projects if the recognition criteria are met.

When significant parts of the investment property are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. All other repair and maintenance costs are recognized in profit or loss as incurred.

The Company depreciates building component of investment property over 60 years from the date of original purchase as per the requirement of Schedule II of the Companies Act, 2013. The leasehold investment properties are amortized over the term of the lease.

Though the Company measures investment property using cost based measurement, the fair value of investment property is disclosed in the notes. Fair values are determined based on an annual evaluation performed by an accredited external independent valuer.

Investment properties are de-recognized either when they have been disposed of or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognized in profit or loss in the period of de-recognition.

F. Investments in subsidiaries and associates

Investment in subsidiaries and associates is recognized at cost less impairment. Dividend income from subsidiaries and associates is recognized when its right to receive the dividend is established.

**G. Foreign currency transactions and balances**

Transactions in foreign currencies are initially recognized in the standalone financial statements using exchange rates prevailing on the date of transaction. Monetary assets and liabilities denominated in foreign currencies are translated to the relevant functional currency at the exchange rates prevailing at the reporting date. Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are retranslated to the functional currency at the exchange rate prevailing on the date that the fair value was determined. Non-monetary assets and liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of transaction. Foreign currency differences arising on translation are recognized in the Statement of Profit and Loss for determination of net profit or loss during the period.

H. Borrowing costs

Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalized as part of the cost of that asset. Other borrowing costs are recognized as expenses in the period in which they are incurred. To the extent the Company borrows funds generally and uses them for the purpose of obtaining a qualifying asset, the Company determines the amount of borrowings costs eligible for capitalization by applying a capitalization rate to the expenditure incurred on such asset. The capitalization rate is determined based on the weighted average of borrowing costs applicable to the borrowings of the Company which are outstanding during the period, other than borrowings made specifically towards purchase of the qualifying asset. The amount of borrowing costs that the Company capitalizes during a period does not exceed the amount of borrowing costs incurred during that period.

I. Leases**Operating leases**

Leases where the lessor effectively retains substantially all the risks and benefits of ownership of the leased asset are classified as operating leases. Operating lease charges are recognized as an expense in the Statement of Profit and Loss on a straight-line basis over the lease term.

J. Deposits provided to lessor

The company is generally required to pay refundable security deposits in order to obtain property leases from various lessors. Such security deposits are financial assets and are recorded at fair value on initial recognition. The difference between the initial fair value and the refundable amount of the deposit is recognized as a lease prepayment. The initial fair value is estimated as the present value of the refundable amount of security deposit, discounted using the market interest rates for similar instruments. "Subsequent to initial recognition, the security deposit is measured at amortized cost using the effective interest method with the carrying amount increased over the lease period up to the refundable amount. The amount of increase in the carrying amount of deposit is recognized as interest income. The lease prepayment is amortized on a straight line basis over the lease term as lease rental expense.

K. Revenue

Revenue from the sale of Flat/Plots is measured at the fair value of the consideration received or receivable, net of returns, trade discounts and volume rebates. Revenue is recognized when the significant risks and rewards of ownership have been transferred to the buyer, recovery of the consideration is probable, the associated costs and possible return of goods can be estimated reliably, there is no continuing management involvement with the goods, and the amount of revenue can be measured reliably. Interest income is recognized as it accrues in Statement of Profit and Loss using the effective interest method.

Profit on trading of mutual fund units is recognized only on redemption of units.

L. Impairment of non-financial assets

The carrying amount of the Company's non-financial assets, other than deferred tax assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

The recoverable amount of an asset or cash generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risk specific to the asset. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from the continuing use that are largely independent of cash inflows of other assets or group of assets (the cash generating unit).

An impairment loss is recognized if the carrying amount of an asset or its cash generating unit exceeds its estimated recoverable amount. Impairment losses are recognized in the Statement of Profit and Loss. Impairment losses are recognized in respect of cash generating units are allocated first to reduce the carrying amount of any goodwill allocated to the units and then to reduce the carrying amount of the other assets in the unit or group of units on a pro rata basis.

Reversal of impairment loss

Impairment losses recognized in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists.

An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized directly in other comprehensive income and presented within equity.

M. Earnings per share (EPS)

Basic earnings per share are computed using the weighted average number of equity shares outstanding during the period.

Diluted earnings per share is computed by dividing the net profit after tax by the weighted average number of equity shares considered for deriving basic EPS and also weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented. The number of equity shares and potentially dilutive equity shares are adjusted for bonus shares, as appropriate.

N. Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash on hand, cash at banks, demand deposits, short-term deposits with balance maturity of three months or less as at the balance sheet date, which are subject to an insignificant risk of changes in value.

For the purpose of Statement of Cash Flows, cash and cash equivalents comprise cash on hand, cash at banks, demand deposits, short-term deposits with balance maturity of three months or less from the balance sheet date and other short term investments, that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

O. Employee Benefits**i. Short Term Benefits**

Employee benefits (other than post employment benefits) which fall due wholly within twelve months after the end of the year in which the employees render the related service are recognized at the amount expected to be paid for it.

ii. Post Employment Benefits

The Company participates in various employee benefit plans. Post-employment benefits are classified as either defined contribution plans or defined benefit plans. Under a defined contribution plan, the Company's only obligation is to pay a fixed amount with no obligation to pay further contributions if the fund does not hold sufficient assets to pay all employee benefits. The related actuarial risks fall on the employee. The expenditure for defined contribution plans is recognized as expense during the period when the employee provides service. Under a defined benefit plan, it is the Company's obligation to provide agreed benefits to the employees. The related actuarial and investment risks fall on the Company. The present value of the defined benefit obligations is calculated using the projected unit credit method.

The Company has the following post employment benefit plans:

Gratuity

In accordance with the Payment of Gratuity Act, 1972, the Company provides for a lump sum payment to eligible employees, at retirement or termination of employment based on the last drawn salary and years of employment with the Company. The Company's obligation in respect of the gratuity plan, which is a defined benefit plan, is provided for based on actuarial valuation using the projected unit credit method. Actuarial gains or losses are recognized in other comprehensive income and are not reclassified to profit or loss in subsequent periods.

iii. Other long term employee benefits

**Leave Encashment**

The employees of the Company are entitled to leave encashment. The employees can carry forward a portion of the unutilized accumulating leaves and utilize it in future periods or receive cash at retirement or termination of employment. The Company records an obligation for leave encashment in the period in which the employee renders the services that increases this entitlement. The Company measures the expected cost of leave encashment as the additional amount that the Company expects to pay as a result of the unused entitlement that has accumulated at the end of the reporting period. The Company recognizes accumulated leave encashment based on actuarial valuation. Non-accumulating leave encashment are recognized in the period in which the absences occur. The Company recognizes actuarial gains and losses immediately in the statement of profit and loss.

P. Provisions & Contingencies

A provision arising from claims, litigation, assessment, fines, penalties, etc. is recognized when the Company has a present obligation (legal or constructive) as a result of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. These are reviewed at each balance sheet date and adjusted to reflect current management estimates. Contingent liabilities are disclosed in respect of possible obligations that have arisen from past events and the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the enterprise. When there is a possible obligation or present obligation where the likelihood of an outflow is remote, no disclosure or provision is made.

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity. A contingent asset is disclosed, where an inflow of economic benefits is probable.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognized as an asset, if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

Q. Income Taxes

Income tax comprises current tax and deferred tax. Income tax expense is recognized in the statement of profit and loss except to the extent it relates to items directly recognized in equity or in other comprehensive income.

Current Tax

Current tax for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities based on the taxable income for the period. The tax rates and tax laws used to compute the current tax amount are those that are enacted or substantively enacted by the reporting date and applicable for the period. The Company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis or to realize the asset and liability simultaneously.

Deferred Tax

Deferred tax is recognized using the balance sheet approach. Deferred tax assets and liabilities are recognized for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount in standalone financial statements, except when the deferred tax arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profits or loss at the time of the transaction.

Deferred tax assets are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized.

Deferred tax liabilities are recognized for all taxable temporary differences.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Estimation of fair value

The company obtains independent valuations for its investment properties at least annually. The best evidence of fair value is current prices in an active market for similar properties. Where such information is not available, the company considers information from a variety of source including:

-Current prices in an active market for properties of different nature or recent prices of similar properties in less active markets, adjusted to reflect those differences

-Discounted cash flow projections based on reliable estimates of future cash flows

-Capitalised income projections based upon a property's estimated net market income and a capitalisation rate derived from an analysis of market evidence

The fair values of investment properties have been determined by **M/s N.Venkatesh & Associates** accredited registered valuer holding the recognised and relevant professional qualification and has recent experience in the location and category of the investment property being valued. The main inputs used are the local enquiries and prevailing market trends adjusted for location, size, utility, condition and other factors having influence over the fair value. All resulting fair value estimates for investment properties are included in level 3.

55 FIRST TIME ADOPTION OF IND AS

These financial statements, for the year ended 31 March 2018 have been prepared in accordance with Ind AS. For periods up to and including the year ended 31 March 2017, the Company prepared its financial statements in accordance with accounting standards notified under section 133 of the Companies Act 2013, read with paragraph 7 of the Companies (Accounts) Rules, 2014 (Indian GAAP). Accordingly, the Company has prepared financial statements which comply with Ind AS applicable for periods ending on 31st March 2018, together with the comparative period data as at and for the year ended 31 March 2017, as described in the summary of significant accounting policies. In preparing these financial statements, the Company's opening balance sheet was prepared as at 1 April 2016, the Company's date of transition to Ind AS. This note explains the principal adjustments made by the Company in restating its Indian GAAP financial statements, including the balance sheets at 1st April, 2016 and 31st March, 2017.

(a) EXCEPTIONS TO RETROSPECTIVE APPLICATION OF OTHER IND AS (IND AS 101)

i) Estimates: An entity's estimates in accordance with Ind AS at the date of transition to Ind AS shall be consistent with estimates made for the same date in accordance with previous GAAP (after adjustments to reflect any difference in accounting policies), unless there is an objective evidence that those estimates were in error. The Company has not made any changes to estimates made in accordance with previous GAAP.

ii) Ind AS 109- Financial Instruments (Derecognition of previously recognised financial assets/financial liabilities): As per Ind AS 101, an entity shall apply the derecognition requirements in Ind AS 109 prospectively for transactions occurring on or after the date of transition to Ind AS. The Company has applied the derecognition requirement prospectively.

iii) Ind AS 109- Financial Instruments (Classification and measurement of financial assets): As per Ind AS 101, classification and measurement of financial assets shall be made on the basis of the facts and circumstances that exist at the date of transition to Ind AS. The Company has evaluated the facts and circumstances existing on the date of transition to Ind AS for the purpose of classification and measurement of financial assets and accordingly has classified and measured financial assets on the date of transition.

iv) Ind AS 109- Financial Instruments (Impairment of financial assets): As per Ind AS 101, impairment requirements under Ind AS 109 should be applied retrospectively based on the reasonable and supportable information that is available on transition date without undue cost or effort. The Company has applied impairment requirements retrospectively.

(b) EXEMPTIONS FROM OTHER IND ASs (IND AS 101)

i) Deemed Cost for property, plant and equipment and investment property: Ind AS 101 permits a first time adopter to elect to continue with the carrying value of all of its property, plant and equipment as recognised in the financial statements as at the date of transition to Ind AS, measured as per the previous GAAP and use as its deemed cost as at the date of transition. This exemption can also be used for investment property covered by Ind AS 40, Investment Properties. Accordingly, the company has elected to measure all of its property, plant and equipment and investment properties at their previous GAAP carrying amount.

ii) Deemed cost for investment in subsidiaries and associates: As per Ind AS 101, an entity is required to account for its investments in subsidiaries, associates and joint ventures either

a) at cost; or

b) in accordance with Ind AS 109. "Such cost in (a) above shall be cost as per Ind AS 27 or deemed cost. The deemed cost of such an investment shall be its fair value on the date of transition to Ind AS or previous GAAP carrying amount at the date. The company has elected to measure its investment in subsidiaries and associates (except those measured at FVTPL) at deemed cost as determined in accordance with Ind AS 27 i.e. previous GAAP carrying amount of investment in subsidiaries/Associates as at 1st April, 2016.

iii) IND AS 109 Financial Instruments:

An entity may designate an investment in an equity instrument as at fair value through other comprehensive income (FVTOCI) in accordance with Ind AS 109 on the basis of facts and circumstances that exist at the date of transition to Ind AS. The Company has designated unquoted equity instruments in companies other than subsidiaries at FVTOCI, based on the assessment made on the date of transition to Ind AS.
