- * **READY TO USE MIX RATES The Ready to Use Spray bottles are pre-mixed at a rate of 20% EARTHFOOD MAINTAIN® into 80% water.
- *** rate of mix 30% to 70% water.

Whilst at Earthfood we believe that many weeds are medicinal we brought the product to market to terminate 197 imported and engineered pesky vines that are systematically strangling and poisoning the Australian landscape which is creating major issues for its' occupants on the Australian Earthscape.

Earthfood Maintain is hand tapped pine oil by indigenous stewards of sustainable carbon neutral pine tree farming which give the caretakers an income and community. Certified Organic.
