#### 2.3 Other hazards

3.1

Ecological information:

according to Annex XIII of REACH Regulation, the substance contains no constituent considered either Persistent, Bioaccumulative and Toxic (PBT), or very Persistent and very Bioaccumulative (vPvB) at a concentration equal to or greater than 0.1%.

The substance contains no constituent identified as having endocrine disrupting properties according to REACH Article 59(1) or in accordance with the criteria set out in Commission Regulation (EU) 2018/605 at a concentration equal to or greater than 0.1%.

Toxicological information:

the substance contains no constituent identified as having endocrine disrupting properties according to REACH Article 59(1) or Commission Delegated regulation (EU) 2017/2100 at a concentration equal to or greater than 0.1%.

## 3. COMPOSITION/INFORMATION ON INGREDIENTS

# Substancebotanical origin:Citrus medica, (L)production process:obtained by physical means from the outer part of fresh cedrat fruits peel.status:100% Natural Complex SubstanceEC name:Citrus medica, ext.EC number:285-359-3CAS number (EC inventory):85085-28-5other CAS number:68991-25-3

7.1	Precautions for safe handli	ing
	safe handling:	during handling keep original container closed - avoid contact with skin and eyes - wear adequate protective gloves and eye/face protection - avoid any sources of ignition - avoid exposing to high temperature during processing - maintain adequate local and general ventilation where product is handled.
	hygiene at work:	do not ingest or apply to the skin as such - no smoking - remove contaminated clothing - good personal washing routines should be followed - if at risk of contamination, foods, beverages and other articles of consumption must not be stored or consumed at the work areas.
7.2	Conditions for safe handlin	ig, including any incompatibilities
	container:	to be stored in stainless steel drums, preferably under inert atmosphere (nitrogen) with minimum head space, protected from day-light. • <b>take note</b> : the container used during transportation must be considered only as a temporary container and it must not be considered in any case adequate for medium or long term warehousing.

temperature:

Version 5RME07 (Revision Number: 5 - Revision Date: July 13, 2023) from 5 °C to 21 °C.

#### 7.3 Specific end uses

use as flavouring agent - the information of this section is not related to the use of the product in combination with any other material or any other process altering its characteristics.

#### **EXPOSURE CONTROL/PERSONAL PROTECTION** 8

#### 8.1 <u>Control parameters</u>

occupational exposure limit:

Component with limit values that require monitoring at the workplace: CAS 5989-27-5, (R)-p-mentha-1,8-diene AGW (Germany): 110 mg/m<sup>3</sup>, 20 ppm, 2(II); DFG, Sh, Y

#### <u>8.</u>2 Exposure control

60

a good basic standard of occupational hygiene is to be implemented (see also section 7).

#### 8.2.1 Appropriate engineering controls

where appropriate, use closed system to transfer and process this material - if appropriate, isolate mixing rooms and other areas where this material is used or openly handled - maintain these areas under negative air pressure relative to the rest of the plant.

#### 8.2.2 Individual protection measures, such as personal protective equipment

	eye/face protection:	protective goggles with built-in-frame tested to EN166 (should be checked regularly).
	skin protection - hand:	suitable gloves tested to EN374 (should be checked regularly) - always use with clean, dry hands.
	skin protection - other:	protective work clothing solvent resistant (should be checked regularly).
4	respiratory protection:	not necessary in adequate local with general ventilation - avoid breathing vapors.
	thermal hazards:	none

#### 8.2.3 Environmental exposure controls

the usual precautions in handling chemicals have to be observed.

#### **PHYSICAL AND CHEMICAL PROPERTIES** 9.1

_	Information on basic physic	al and chemical properties
	physical form:	liquid
	colour:	yellow to dark yellow/greenish
	odour:	citrusy
	odour threshold:	N/D
	pH:	N/A
	initial boiling point (& range):	N/D
	melting point/freezing point:	N/A
	flash point:	52 °C (125.6 °F)
	evaporation rate:	N/D
	upper/lower explosive limits:	N/D
	vapour pressure:	N/D
	vapour density:	N/D
	relative density $d_4^{20}$ :	0.8480÷0.8580
	relative density $d_{20}$ :	0.8495÷0.8595
	solubility:	in alcohol & other oils / negligible in H <sub>2</sub> O
	partition coefficient n-octanol/H2O:	N/D
	auto-ignition temperature:	N/D
	decomposition temperature:	N/D
	viscosity:	N/D
	explosive properties:	none
	oxidizing properties:	none

## 9.2 Other information

9.2.1 Information with regard to physical hazard classes

none

#### 9.2.2. Other safety characteristics

none

#### 0. STABILITY AND REACTIVITY

#### 10.1 Reactivity

product not reactive with water - product not reactive if used according to storage & handling conditions & identified uses (see subsection 1.2).

#### 10.2 Chemical stability

product stable if used according to storage & handling conditions & identified uses (see subsection 1.2). • shelf life: 18 months, as per recommended storage & handling conditions (see section 7).

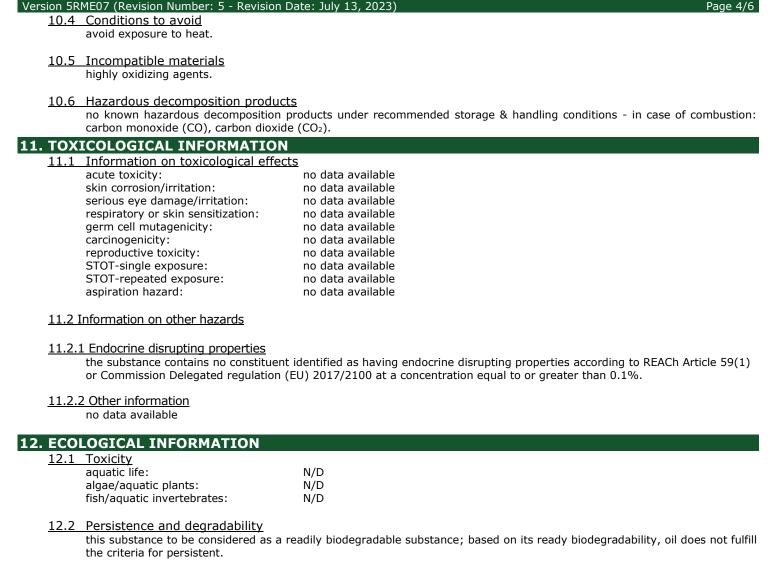

#### 10.3 Possibility of hazardous reactions

none if used according to storage & handling conditions (see section 7) & identified uses (see section 1 & 7).

# Safety Data Sheet

according to Reg. (EU) No 2020/878

Ref. 16980 Page 3/6

Safety Data Sheet

according to Reg. (EU) No 2020/878

Ref. 16980

Page 4/6

#### 12.3 Bioaccumulative potential

as the constituents are readily biodegradable, it is likely that they will also be biotransformed in higher organisms so a high bioaccumulation factor is actually not expected.

#### 12.4 Mobility in soil

EDRAT OIL ITALY

this substance is considered as a readily biodegradable NCS. Based on the ready biodegradability of the NCS, simulation tests in surface water, sediment and soil are not required.

#### 12.5 Results of PBT and vPvB assessment

according to Annex XIII of REACh Regulation, the substance contains no constituent considered either Persistent, Bioaccumulative and Toxic (PBT), or very Persistent and very Bioaccumulative (vPvB) at a concentration equal to or greater than 0.1%.

#### 12.6 Endocrine disrupting properties

the substance contains no constituent considered to have endocrine disrupting properties according to REACh Article 59(1) or Commission Regulation (EU) 2018/605 at a concentration equal to or greater than 0.1%.

#### 12.7 Other adverse effects

no data available

## **13. DISPOSAL CONSIDERATIONS**

#### 13.1 Waste treatment methods

the containers used for this product must completely empty before disposal. Dispose product and/or contaminated packaging in accordance with federal, state and local environmental control regulations - disposal through the waste water is illegal.

#### **14. TRANSPORT INFORMATION**

14.1UN Number 1197

14.2 UN proper shipping name

extracts, liquid, for flavour or aroma

Version 5RME07 (Revision Number: 5 - Revision Date: July 13, 2023)

14.3 Transport hazard class

Class 3

- <u>14.3.1 Transport hazard symbols</u> for IMDG-ADR/RID: fish and tree - flame for ICAO/IATA: flame
- 14.4 Packing group
  - 111
- 14.5 Environmental hazards marine pollutant
- 14.6 Special precautions for user

this product contains constituents flammables & dangerous for the environment - in case of pouring out, make sure to label new package accordingly, reproducing original label with relevant symbols.

14.7 Transport in bulk according to Annex II of MARPOL and the IBC Code not applicable

## **15. REGULATORY INFORMATION**

15.1 Safety, health and environmental regulations/legislation specific for the substance

Regulation (EC) No 1272/2008 of the European Parliament and of the Council of 16 December 2008 on classification, labelling and packaging of substances and mixtures, amending and repealing Directives 67/548/EEC and 1999/45/EC, and amending Regulation (EC) No 1907/2006.

Commission Regulation (EU) 2020/878 of 18 June 2020 amending Regulation (EC) No 1907/2006 of the European Parliament and of the Council on the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH).

15.2 Chemical Safety Assessment

N/D

## **16. OTHER INFORMATION**

#### a Revision

Version 2RME01 (Revision Number: 2 - Revision Date: June 2018)

Version 3RME01 (Revision Number: 3 - Revision Date: June 04, 2021)

- 7.2 Conditions for safe handling, including any incompatibilities storage temperature update
- from 3 °C to 7 °C  $\rightarrow$  5 °C to 21 °C
- Version 4RME01 (Revision Number: 4 Revision Date: December 13, 2022)

no changes up to date of this revision

Version 5RME01 (Revision Number: 5 - Revision Date: July 13, 2023)

- updating to Sections: 10.2 shelf life updated 547 days → 18 months
- added density to 20/20
- Updates to Sections: 2, 8, 9, 11, 12, 14, 15 according to Reg. (EU) No 2020/878
- b Legend

CLP: Regulation (EC) No 1272/2008 / CSR: Chemical Safety Report / Asp. Tox.: aspiration hazard / Aquatic Chronic: aquatic hazard / Skin Irrit.: skin irritation hazard / Skin Sens.: skin sensitization hazard / Flam. Liq.: flammable liquid hazard / WAF: Water Accommodated Fractions / LD50: Lethal Dose 50 / LL50: Lethal Loading 50 / EL50: Effective Loading 50 / NOAEL: No-Observed Adverse Effect Level / NOEL: No-Observed Effect Level / LOEL: Lowest Observed Effect Level / OECD: Organization for Economic Co-operation and Development

- <u>c</u><u>Literature references and source of data</u> RIFM - FEMA database – IFRA IOFI Labelling Manual
- d List of relevant hazard statements and precautionary statements

H226 flammable liquid and vapour

- H304 may be fatal if swallowed and enters airways
- H315 causes skin irritation
- H317 may cause an allergic skin reaction
- H411 toxic to aquatic life with long lasting effects
- P210 keep away from heat/sparks/open flames/hot surfaces no smoking
- P241 use explosion-proof electrical/ventilating/lighting/equipment
- P262 do not get in eyes, on skin or on clothing
- P273 avoid release to the environment
- **P280** wear protective gloves/eye protection/face protection
- **P301/310** if swallowed: immediately call a poison center or doctor/physician

**P303/361/353** if on skin (or hair): remove/take off immediately all contaminated clothing. rinse skin with water/shower **P331** do not induce vomiting

- P405 store locked up
- **P501** dispose product/container in accordance with applicable regulations

#### f Further information

The information on this SDS is correct to the best of our knowledge, covering the involved product at the date of its publication. They apply to the product as such as per the described specifications. The information is not related to the use of the product in combination with any other material or any other process altering its characteristics. The end user should apply to the existing normative and laws covering the use of the product, the hygiene and security at work. The container used during transportation must be considered only as a temporary container and it must not be considered in any case adequate for medium or long term warehousing. Upon receipt, our product must be stored as soon as possible in compliance with point 7.2 of this SDS. The information given in this SDS is in accordance with the Reg. (EU) No 2020/878.
