Soapless detergent to be used on all of the above base cloths. No fabric Conditioners/Softeners or Freshener sprays to be used as this can adversely effect FR properties. A tolerance of +/- 3% should be allowed for on pattern repeats as it can vary from quality to quality.

Shade variations may occur batch to batch but we will endeavour to maintain good colour continuity. Please inspect all goods before cutting as no claims can be accepted or exchanges made once the material has been cut. Gratitude extended to our upholstery suppliers.
