

AWNING
collection

AWNING collection

As the summer days get longer and the sun seems even hotter, creating the right environment on your patio is very important.

With our extensive range of bespoke awnings you are able to extend your outdoor living space whilst creating a covered area to protect your from the sun, as well as provide shelter from light rain.

OUTDOOR enjoyment

Retractable awnings are stylish addition to any home or garden.

Our high quality waterproof fabrics will keep you protected come rain or shine.

Whether you're relaxing on a hot sunny day or need to finish a spot of gardening despite the drizzle, an awning will both keep you dry and guard against sunburn.

TRANSFORM your patio

Entertain outside in the evenings with our built-in LED lighting, infra-red heating and wind breaker options.

All of our awnings are made to measure and come in a wide range of stunning fabrics and colours for you to choose from.

Our awnings can be operated manually with a winding handle or automated by means of an electric motor and remote control.

INTELLIGENT options

Our intelligent range of sensors will let you make the most of your awning.

Wind Sensor

Automatically retracts the awning when it becomes too windy.

Sun Sensor

Automatically extends the awning when the sun is shining.

Rain Sensor

Automatically retracts the awning when it rains heavily.
