

EDMUND BELL LININGS

100% Cotton Flame Retardant Linings & FR Cascade Coloured Lining

Edmund Bell's selection of Flame Retardant Cotton Sateen linings are manufactured to the same high standards as our domestic curtain linings and are all finished in the UK. Their main use is with face fabrics composed of a high level natural fibre and are ideal for use on curtains in Hotels, Pubs, Nursing homes and public buildings.

Inherently Flame Retardant Polyester

Ideal for situations where the curtains need to be hard wearing or they will be subjected to very regular high temperature washing. Perfect for use as a curtain lining for polyester face fabrics such as Trevira CS where flame retardant properties are needed. In addition they can also be used as a bedding fabric or as a backing fabric for bedspreads and duvets.

Blackout Flame Retardant Curtain Linings

We've built an international reputation for our extensive range of flame retardant blackout curtain linings by working closely with finishers around the world to manufacture the highest quality products.

We make many of our flame retardant linings in both single and double width fabrics to save you time and money. Our Odyssey range of coloured blackout curtain fabrics double as coloured linings or as single layer face fabric.

Whether you opt for the economy of a 2 Pass blackout or choose a 3 Pass for its ultra-luxurious appearance; if you need extra body or a supersoft handle you'll find the perfect fabric in our collection.

Light weight flame retardant interlining to help improve the appearance and draping qualities of the curtains

6405	Inherent FR	200gms	100% Polyester	White	137cm	50m	BS 5867 Part 2 Type B
------	-------------	--------	----------------	-------	-------	-----	--------------------------

Duoline Flame Retardant Bonded Interlinings

Edmund Bell's Duoline flame retardant bonded interlinings have been manufactured using either 3 Pass blackout or cotton sateen to create a product that will add a luxury drape effect whilst saving time and money by speeding up the curtain making process.

In addition we also stock a bonded wadding which can be used to dramatically improve the drape of heavy curtains or add body to more lighter weight fabrics.

Duolines FR

Product Code	Finish	Weight	Composition	Colours	Width	Average Roll Size	Fire Standards & Regulations
--------------	--------	--------	-------------	---------	-------	-------------------	------------------------------

FR DUOLINE with Fleece
