

Roller Blind Assemblies

Introducing The New 45 & 48mm Motorised Roller Blind Assemblies

Becker Motors Ltd supply all the parts necessary to manufacture motorised roller blind units.

Whether it's the supply of component parts for OEM's or complete assemblies, Becker Motors offer absolute quality at competitive prices.

Utilising only the best high quality parts, we offer complete kits in 45 and 48mm tube to suit all applications - cut to size, ready to go.

To reduce cost, coupling devices make it possible to link tubes in a straight line.

With a choice of operation from entry level hardwired motors to more fashionable radio controlled kits, we have it all...
