

Outpak Slurry Solution

Slurry Solution to Slurry Waste estimates. Coverage may vary depending on water content and slurry density. The amounts listed are only an estimate and can differ due to moisture and temperature. Cold weather will slow down the process. The greater the agitation, the faster the encapsulation.

<u>Slurry Solution</u>	<u>Slurry Waste</u>
1 lb	20 gallons
2.5 lbs	55 gallons
Outpak 7lb bottle	145 gallons
Outpak 50lb bag	1,000 gallons

Slurry Solution can be added to any container for water-based washout or paint absorption. It can also be directly applied to a surface for use with floor polishing, core drilling and wet saw cutting. It will not stain floors or leave a slippery residue.

Made from 100% organic blend of polymers, it is EPA compliant and ready to dispose of in any trash container or landfill. The solution does not rehydrate.
