

DFI Coatings Post-Care Instructions For Silica-Based Surfaces

Shower Tile

For optimum performance, after showering, rinse the tile and wipe down any remaining droplets. You may towel-dry the surface or use a squeegee. Once a month, wet the tile and use a nylon body puff to go over the surface until clean and smooth. Then rinse and dry the tile.

Granite Countertops

Granite countertops can be cleaned with a non-abrasive sponge, any liquid dish soap, and water. Alternatively, you can use any of the recommended cleaning products listed below.

Other Recommended Cleaning Products:

Ammonia-Free Windex®
Mrs. Meyers Multi-Surface Cleaner
White household vinegar diluted with water
Seventh Generation™ Granite & Stone Cleaner
