ROBOTICS AND CODING SPECIALISM

Brand new for 2023 Samiad is delighted to announce our new English + Robotics and Coding programme!

Coupled with our stellar English language tuition, our students will receive expert guidance in computer coding. Sessions will be taught in Python, a programming language used worldwide by tech giants such as Google, NASA, and YouTube in critical applications within their businesses.

As well as Python, sessions will be taught in Lego Robotics, and App creation software, to give our students a well-rounded understanding and practical expertise in different types of computer coding.

Quick facts:

- **Full-board residential campus accommodation**
- **4 x 3-hour coding and robotics sessions per week**
- **All IT equipment provided**
- **Structured evening activities**
- **2 full day excursions per week**
- **Certificate on completion of the course**
