AGREEMENT:

Whereas, the undersigned, the Client, has requested that Odo-Pro to perform service work on an odometer of a motor vehicle,

Whereas, State and Federal Laws specifically prohibit the tampering or alteration of any vehicle's odometer so that the indicated mileage is not the true mileage and that State and Federal Laws provide for significant damages including the right to attorney fees for any illegal tampering or alteration of a vehicle's mileage reading;

Furthermore by signing this contract the Client acknowledges that it is a Federal and State crime to knowingly install an odometer with mileage that differs from the true mileage of the vehicle. Whereas, in many cases it is impossible to accurately determine the actual mileage of a vehicle, and instead, Odo-Pro must rely upon representations as to actual mileage provided by the Client in order to accurately set the odometer;

In consideration of the above, the parties hereby agree as follows;

1. The Client represents and warrants to the best of their knowledge that the actual mileage on this:

as of this _____ should have a mileage of: _____

The reason for programming this odometer is: _____
(Original Inoperative, Damage, Theft, Flood, Fire, Kit Car, Etc.)
