

## Disclaimer: Carbon Negative Statement

The following disclaimer outlines important information regarding our carbon negative statement. By accessing or using our products or services, you agree to acknowledge and abide by the terms and conditions stated herein:

1. **Calculation and Measurement:** We make every effort to accurately calculate our carbon footprint using a reliable carbon greenhouse gas emissions calculator. However, please note that the calculations are based on estimations and assumptions, and there may be inherent limitations in the accuracy of the data utilized. Therefore, our carbon negative claim is subject to reasonable variations and may not reflect the exact carbon emissions produced.
2. **Supplier Claims:** We do not make any claims regarding the carbon emissions produced by our suppliers. While we strive to collaborate with suppliers who share our environmental values, we cannot guarantee or independently verify their production processes or their carbon footprint. Our carbon negative statement solely pertains to the shipping involved from our suppliers and the production portion of spirits on our end.
3. **Carbon Offsetting:** We have implemented a carbon tax, the proceeds of which are used to purchase carbon credits for offsetting our calculated carbon footprint. However, please be aware that carbon offsetting is a complex process and involves various factors such as the availability and reliability of carbon credits. While we aim to offset our carbon emissions and achieve a negative carbon footprint, there may be inherent limitations and uncertainties associated with the effectiveness of these offsetting measures.
4. **Environmental Values:** We strive to work with suppliers who align with our environmental values. However, the inclusion of a supplier does not necessarily indicate their complete adherence to these values, and their practices may change over time. Therefore, we cannot be held liable for any actions or practices of our suppliers that are inconsistent with our environmental goals.
5. **Carbon Footprint Reduction:** Through our own commitment to minimizing our carbon footprint, we have made significant efforts to lower our environmental impact. However, please note that achieving a low carbon footprint is a continuous process, and our current status may vary over time due to factors beyond our control.
6. **Limitation of Liability:** To the fullest extent permitted by law, we disclaim any liability for any damages, losses, or expenses arising out of or related to the interpretation, implementation, or reliance upon our carbon negative statement. We shall not be held responsible for any inaccuracies, errors, omissions, or

unforeseen events that may affect our carbon footprint calculation or the effectiveness of our carbon offsetting measures.

Please carefully read and understand this disclaimer before relying on our carbon negative statement. If you have any questions or concerns, we encourage you to reach out and we can show you more information on our carbon accounting practices.
