Don't treat the product and battery as a household waste or into a here. When you decide to dispose of the product and its battery, please follow the local environmental laws to handle the battery to avoid an explosion.

Medical device interference

The product contains components and radios that emit electromagnetic fields and also contains magnets. These electromagnetic fields and magnets may interfere with pacemakers, delibrillators, or other medical devices.

Maintain a safe distance of separation between your Consult your physician and medical device manufacturer for information specific to

your medical device. Stop using product if you suspect it is interfering with your pacemaker, delibrillator, or any other medical device.

## Listen Responsibly

To avoid hearing impairment, please make sure to turn down the volume of the music player before connecting the earphones. After putting the earphones into/onto the ears, turn up the volume gradually until to a comfortable listening level. Noise level is measured in decibels (db). Exposure to 85db or higher noise will lead to gradual hearing impairment. Please supervise your usage and the hearing impairment is a function of loudness against time. The louder the sound is, the shorter you can be exposed. The softer the sound is, the longer you can listen. Please fully charge before use. Please use a low-power charger below 5V-2.1A to charge, otherwise it will cause damage to the earphone.
