The images and the features mention in the manual are for representation only actual features may vary a little based on the software updates and better user experiences.

FAQ:

1. **Warranty:** 12 months from the date of purchase.

2.**Why can't you wear watch for hot water baths,hot springs, saunas, etc.**

The bath water temperature is relatively high, it will produce a lot of water vapour, and the water vapour is gas phase.Its molecular radius is small, it is easy to infiltrate from the shell gap of the watch, and when the temperature drops. It will re-condense into a liquid phase, water droplets can easily cause short circuit inside the watch, damage the circuit board and damage watch.

Special Attention:

For other issues of watch usage, you can get detailed answers in the app suggestion feedback.
