### Bluetooth Calling

**How to connect**

Step 1: After connecting the watch to the DaFit App, you need to go to the Bluetooth setting of the phone and pair the watch with your phone and pair the watch with your phone for Bluetooth calling function and phone function.

Due to different systems of iOS phone and Android phone so the Bluetooth connection for iOS and Android is different as well. Please read the following steps for iOS and Android based on the system of your phone.

**For iOS**

After connecting with App, it will remind you to connect phone BT call function to connecting your phone Bluetooth phone setting menu.

Please check your iOS Bluetooth setting list to search and connect "URBAN PRO X".

After connect with iOS Bluetooth, it will show "URBAN PRO X" in "MY DEVICES" list.

After successfully connected with phone Bluetooth, the watch phone call interface will display.

If you can not connect with phone Bluetooth, please check as below:

Note: Check the phone setting list to make sure Phone call on.

Then try to connect with phone Bluetooth as above steps.

**For Android**

If the watch connected with App successfully, App will display "BT call" with label "URBAN PRO X". Please Pair it.

After check phone, then you will see the above name "URBAN PRO X" in your phone Bluetooth list.
