1

PLAN YOUR DESIGN ON THE TABLE. FIND A LAYOUT YOU LIKE.

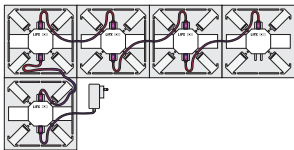

2

PICK A TILE TO BE YOUR STARTER TILE. FIND THE PLUG AND THE LONG CABLE.

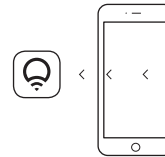

3

CONNECT THE FIRST TILE ON A TABLE NEAR POWER.

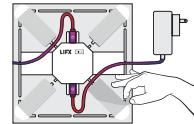

4

CONNECT ALL THE TILES WITH THE SHORT CABLES SECURELY & TURN ON.

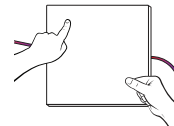

5

OPEN THE LIFX APP AND ADD YOUR STARTER TILE.
(The remaining Tiles will onboard automatically).

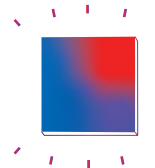

6

TURN THE POWER OFF. PEEL THE COMMAND STRIPS LINERS OFF THE BACK OF THE TILES.

7

PRESS TILES TO THE SURFACE ONE BY ONE FIRMLY FOR 30 SECONDS. REPEAT FOR ALL TILES.

8

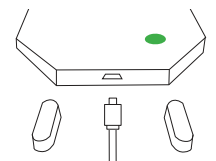

ONCE ALL YOUR TILES ARE CONNECTED, TURN THE POWER ON AND USE THE APP OR VOICE TO CONTROL. ENJOY !

HomeKit setup code.

SCAN THIS HOMEKIT QR CODE

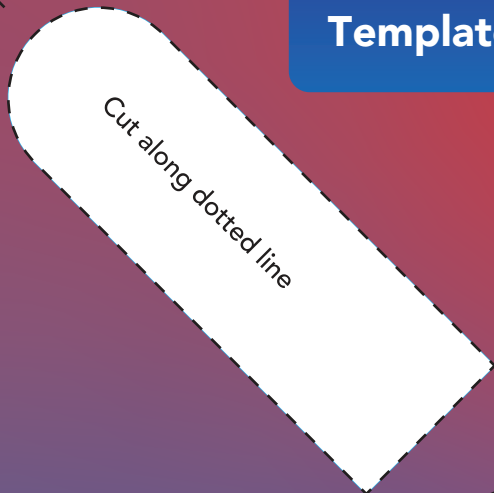

For easy set-up find the Tile marked with the green sticker and connect it to the power cable. This is now your first tile. Scan the HomeKit setup QR code here to connect your Tiles with Apple HomeKit.

Tip: If you ever change the Tile arrangement you can find all of the HomeKit QR codes in your manual or on the back of the Tile. Always use the QR code with the serial number matching your first connected Tile.

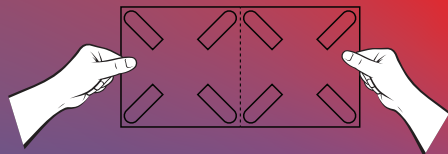

When you're done keep this card somewhere safe.

Template

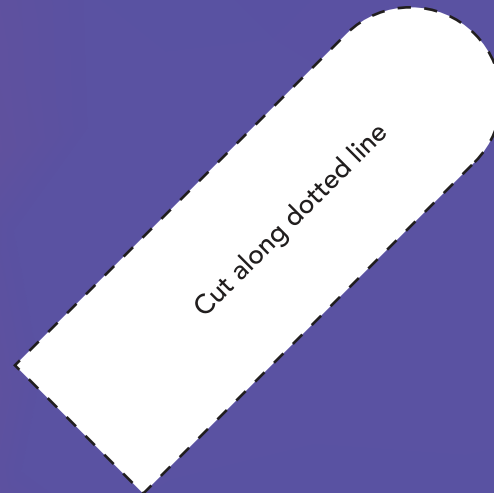

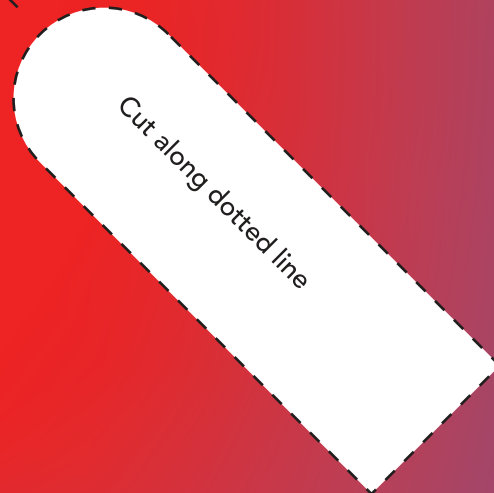

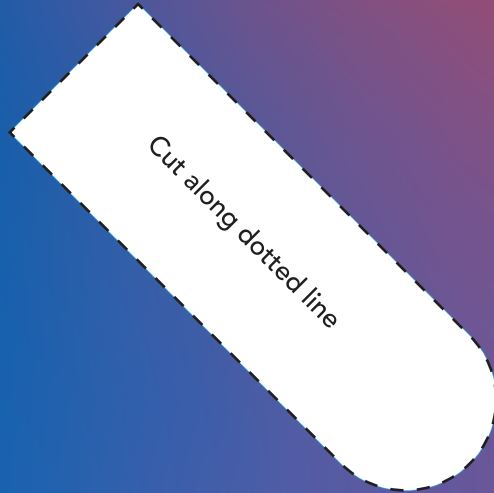

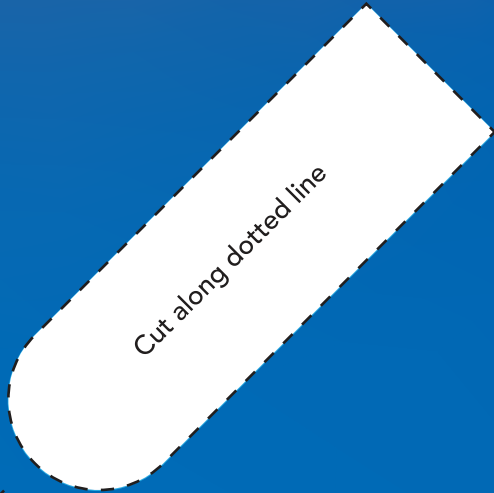

1

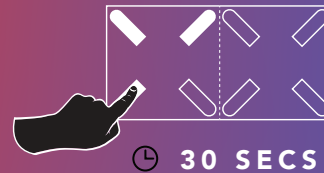

1 Hold this card to the wall where you want your first Tile.

To make it easier later, lightly mark the corners with a pencil, a piece of masking tape or similar temporary method suitable for the surface.

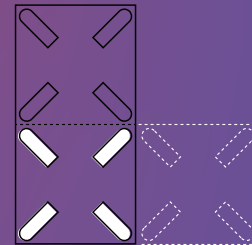

2

2 Peel the command strips and the liners of the back of the tiles and use the template slots to press firmly into position.

3 Shift and flip the template to get the layout you want.

3

⌚ WAIT 1 HOUR AFTER STICKING

3M Strips

Prepare the wall using the wipes included. Do not use household cleaners.

HOW TO APPLY

Separate. Peel liner off. Press strip firmly to wall for 30 seconds. Repeat for all. Wait 1 hour.

Press the corners of each Tile to the strips on the wall until each strip clicks. This means it is affixed.

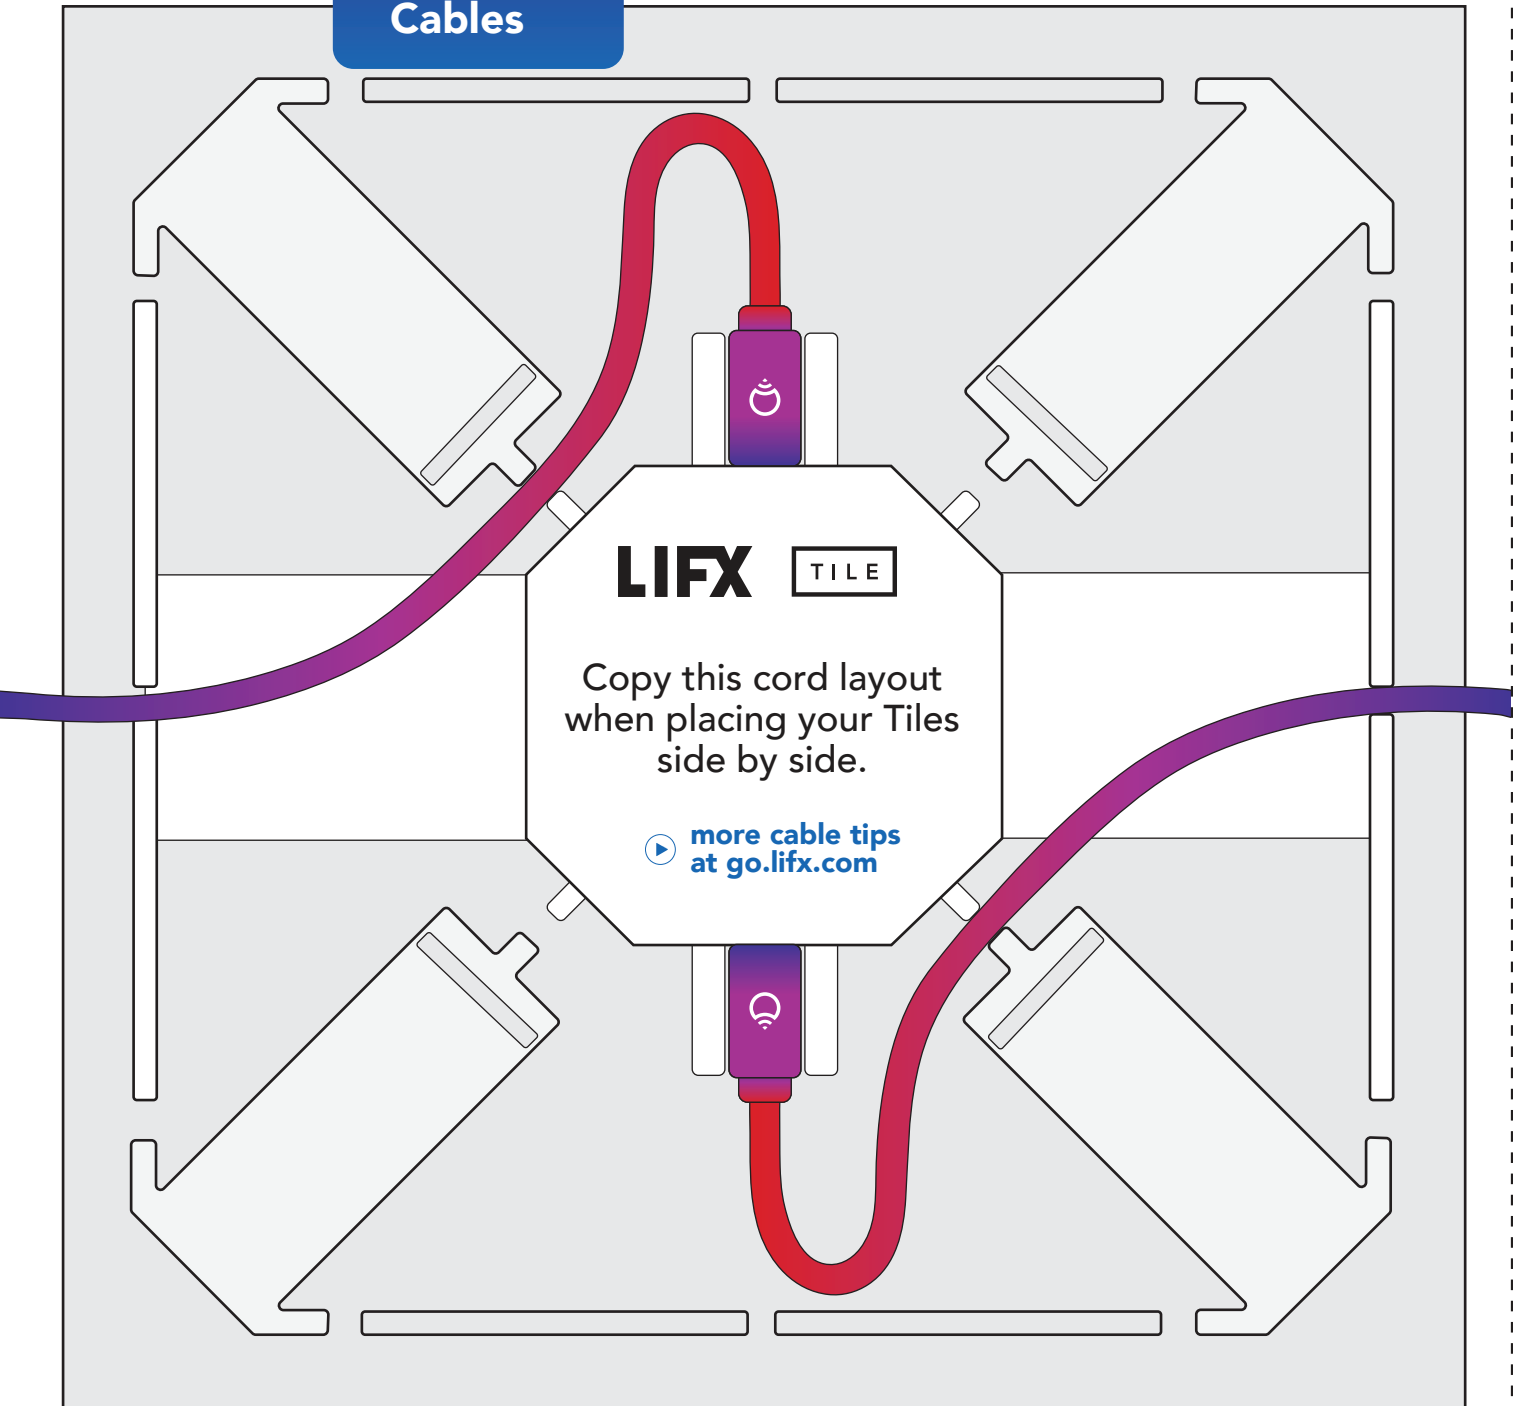

To Remove —

Press the top of strip and grab tab, stretch slowly straight down along wall. ***Never pull strip towards you.***

Stretch for at least 30cm until strip releases from wall.

Cables

TURN OFF AT THE PLUG BEFORE PULLING OUT CABLES

If you need to straighten or adjust your Tiles, grip one edge or corner and pull towards you. You can shift it and press it back in.

Do not pull the whole Tile straight towards you to remove.
