Hekla

High Performance / Sleek Aesthetics

Þú heyrðir það rétt! You heard that right! This stainless-steel wonder hailing from the frozen depths of Iceland is here! The Hekla volcano has been belching fire and magma since 845 A.D. Now you can have a piece of this fantastic belch! The Hekla is full 304 Stainless-Steel including our patent-pending stainless-steel burner. It also includes brass fitting and a luxurious real cowhide handle. This thing is Petta er feitt!

Tabletop Vol-CAN-no

Classic Design / Unapparelled Toughness

The Tabletop is ready to travel! Warm your hands on the patio, strap it to your raft, or throw it in the Taco and head to the mountains. The Tabletop is made from a very portable, ultra-tough 50 Cal. Ammo Can with 280,000 BTUs of awesome s'more making fire. Fire it up when you are tailgating, hunting with buddies or at the campsite with the family. Just as the name suggests, the Tabletop feels right at home on the picnic table at your local campground.

Krakatoa FireBreather

Massive Burn/ Party Ready

You might ask yourself, “Do I really need a can of fire that is taller my 12 year old?” If you just asked that question, the Krakatoa is not for you. Back away slowly. Like it’s namesake, the Krakatoa Firebreather feels like the real thing with a Volcanic Explosivity Rating of about 6 (or something like that). It’s a big fire. The Krakatoa FireBreather is a 20mm Rocket Box perfect for your patio or the block party. Our largest LavaBox, this behemoth of fire is great for sitting around at camp with your group of 10+. Could it make it’s own island? Maybe.
