

## Essence Fire (Fire Ribbon)

Index # 56, Rev-13 / 15-Oct-2019

### DESCRIPTION

The Essence “hole-in-the-wall” fireplace has been designed to suit homes where a smaller feature fireplace is required. The Essence uses our award-winning ribbon gas burner technology with a beautiful dancing ribbon of flame. The fire is designed with minimal depth, 318mm, and can be installed in most properties with a chimney or by using a flue liner. The 5.7Kw fire is operated by a thermostatic remote control with a digital handset. There are many design options available.

The Essence fire is available with either a Satin Black Interior with Brushed Steel Shelves or a Full Brushed Steel Interior.

### FASCIA OPTIONS

The Essence fire is supplied with either a Satin Black Steel or Brushed Steel trim.

### CE APPROVAL

The Essence is CE approved for Natural Gas only I2H – G20 / 20mBar and is available for all European Countries using this gas type.

### POWER RATING

Natural Gas – Heat Input 5.7kW, Flow Rate 0.543m<sup>3</sup>/hour, 24p/hour

### DIMENSIONS

Overall dimensions of the fire – See drawings on page 2

### OTHER TECHNICAL INFORMATION

1. Gas Types – The Essence is only available in Natural Gas
2. Ignition – The fire is operated by a RF (radio frequency) battery powered, remote system with handset. The handset shows the condition of the batteries in both the handset and fire. High quality batteries must be used and have a life of approximately 12 months or greater depending on usage. The remote also includes a thermostat to regulate the room temperature.
3. Chimney or Flue System – Brick built Class 1 or Class 2 Chimney. 127mm flue liner (or larger) with a minimum length of 3metres.
4. Gather – It is recommended to buy the standard gather with the fire to ensure correct installation and to stop debris falling into the enclosure.
5. Safety Devices – Tested to the latest CE safety standard. Fitted with ODS (Oxygen Depletion System) safety system which monitors oxygen levels in the room and shuts off the fire should the chimney be blocked. It is advised that when operating the appliance in a room where children or elderly people will be present that a fireguard should be used.
6. Ventilation – No additional room ventilation is required from outside (air vent)

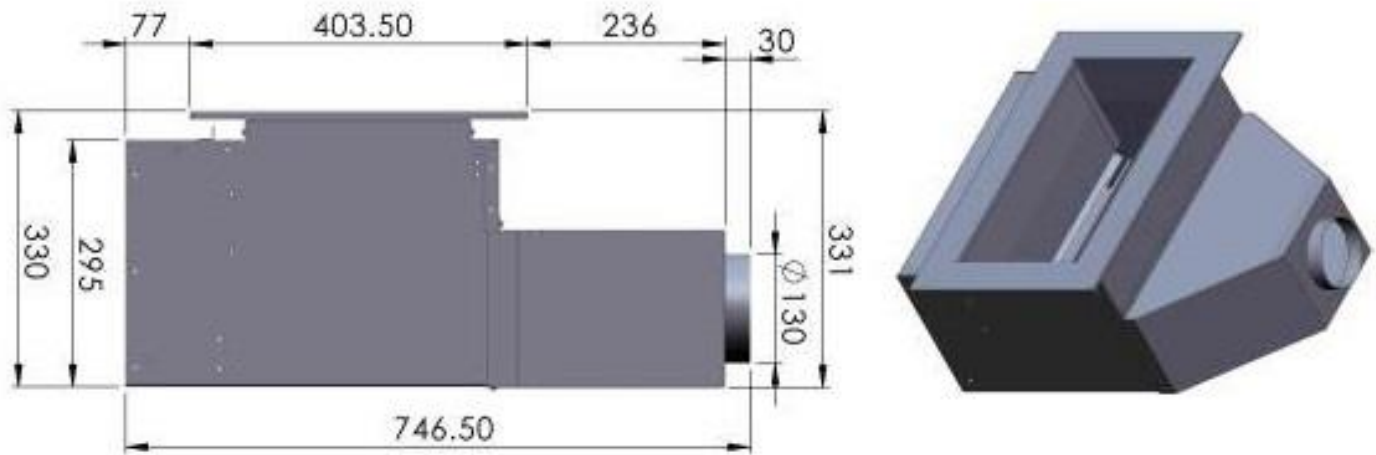

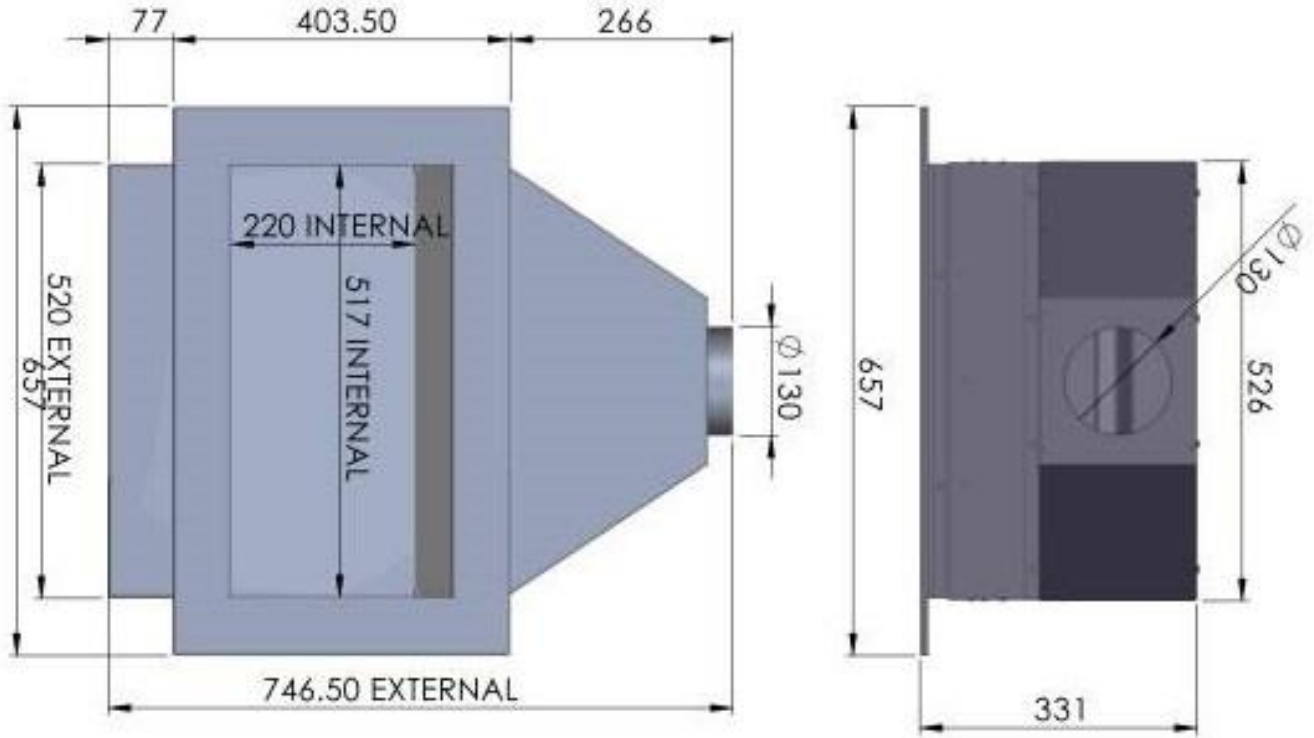

CVO reserve the right to amend and improve the specification sheets without prior notice. If in doubt about any aspect of this specification, please call. The specification is not to be used to install the fireplace. Every fire is supplied with an official install booklet. Spirit Fires Limited own the Spirit, CVO and Firevault Trademarks. Copying and distribution of these specifications is not permitted without the permission of Spirit Fires Ltd. All dimensions include a +/-2mm tolerance.

Spirit Fires Ltd, 4 Beaumont Square, Durham Way South, Newton Aycliffe, County Durham, DL5 6XN
