

CVO FIRE 

GAS FIRE BOWLS

OPEN FLAME FIREPLACE

BRITISH MANUFACTURING: We are a UK gas fire manufacturing company with a range of products to meet every installation requirement. CVO fire has been at the forefront of gas fire design since 1999, using cutting edge technology to create unique, desirable gas fires. All of our gas fire bowls are handmade at our UK factory at Newton Aycliffe in the North East of England. We use locally sourced materials. Every gas fire is given a 40-point test at the factory to ensure that it performs exactly as designed ensuring a long and reliable service.

UNIQUE BURNER DESIGN: CVO Fire created the gas fire bowl design using a special ceramic matting for the gas burner in 1999. This material is unique to CVO and produces a clean flame which dances across the matting creating a sea of sparkles, giving the impression of embers burning on a coal or wood fire with the benefit of low running costs and cleanliness of gas. We have supplied our gas fire bowls to properties in the UK, Europe, USA and Australia. We design our fires to have reliability and quality built in from the start. Our gas fire bowls can be seen in many commercial properties around the world where they are used for long periods of time for many months of the year. Our client list includes Companies such as Hilton, Crowne Plaza and Fairmont who demand high quality products.

AWARD WINNING DESIGN: The CVO gas fire bowl won the Price of Wales Design Award. CVO Fire also won the Homes & Gardens Design Award, The Retail Store of the Year Award and the Interbuild Energy Efficiency Award. Our products have featured on TV programs such as Grand Designs and the Homes Show.

CHOICE: With our gas fire bowl range you can design your own unique fireplace. The bowls are available to buy as a single item for use in existing fireplace openings or as part of a bespoke fireplace design.

- Bowl Style – Oval or Round Designs in various sizes.
- Gas Types - Natural Gas or LPG (Propane).
- Bowl Finish – White or Black Stone, Aluminium or Bronze
- Enclosure Style – Single or Double Sided with Hole in the Wall and Traditional (with surround)
- Enclosure Finish – Black Steel, Brushed Steel and Various Natural Stone Types.
- Fire Table – A wide range of table shapes and custom made canopies in various materials and colours.

CE CERTIFICATION: Our gas fire bowls are tested to the latest CE approval standard. This approval includes tests for reliability, safety and function. The CE test standard is very strict and once awarded it allows us to manufacture our gas fires in the UK and then sell throughout Europe.

BESPOKE DESIGN: Our gas fire bowls are perfect for use in a Home or Commercial Property. We have a specialist team of design engineers who can design enclosures, tables and canopies to match a design requirement. We can advise on flue systems and installation requirements. Our bespoke fire bowl designs can be seen in many hotel bars, restaurants and reception areas around the world. We are recognised as the world leader in gas fire design and manufacturing.

FIREVAULT SHOWROOM: We have a fireplace showroom within our factory with our gas fire bowls on live display. There are examples of the various installation styles and materials on display. Our trained sales consultants can also discuss any special installation requirements and bespoke designs during your visit. The showroom is open Monday to Saturday, 9am to 6pm. To discuss visiting call sales on **01325-301020**.

TECHNICAL INFORMATION: We can supply all the technical information you require to decide the suitability of the product for your home prior to ordering. Most information is available from the technical section of the web site www.cvo.co.uk. We can also email install booklets, technical sheets and drawings.

PRICES & ORDERING: To obtain the latest prices and special offers call sales. Prices are also available online at our web store at www.cvofire.co.uk. Sales are direct from our factory and selected distributors in the UK and across Europe. To discuss our gas fires in greater detail and to place your order call sales on **01325-301020**, Monday to Saturday, 9am to 6pm. For trade and volume customers call to set up a trade account.

“ The CVO Fire Bowl looks stunning and is greatly admired by our customers ” Waterford Forum

Small Oval

DESCRIPTION

The SMALL OVAL gas fire bowl has been designed using special matting which creates a unique flame effect which has won awards for design and technology. The gas fire bowl is available in either White or Black stone, polished Aluminium or Bronze. The gas burner can be purchased for Natural Gas or LPG/Propane and in various power ratings, 7.4Kw or 9.5Kw giving either a small or large flame effect. The fire is operated by a manual control. Remote control is available upon special request.

The SMALL OVAL has an overall width of 490mm and this iconic design can be used in many installation styles – contemporary or traditional. You can purchase a full fireplace package of gas fire bowl and either single or double sided enclosure or purchase the bowl only for use in an existing enclosure or as part of a bespoke fireplace design.

Enclosures are available in black or brushed steel and various natural stone types. There are a number of full traditional fireplace suites available, including a gas fire bowl, enclosure, surround and hearth. We also have a range of fireplace tables and canopies available.

SPECIAL FEATURES

- Unique CVO Gas Fire Burner Technology.
- Solid Stone or Hand Polished Cast Metal.
- Many Installation Styles and Finishes.
- Proven, Reliable Design, Sold Since 1999.

Trim	Black, Brushed, Bronze, Various Stone	
Design	Single or Double Sided	

NOTE: The bowl can be used in many installation styles and is sold as a single item. We can also supply a wide range of single and double sided enclosures in various finishes. 7.4Kw is the standard model.

INSTALLATION

The SMALL OVAL can be installed within a traditional fireplace with surround and hearth, as a contemporary “hole in the wall” design or as a freestanding bowl with canopy. Our standard enclosures include single and double sided versions in a wide range of metal and stone finishes. The double sided enclosures have a glass panel option to eliminate expensive flue requirements. Call sales for technical drawings of the enclosures.

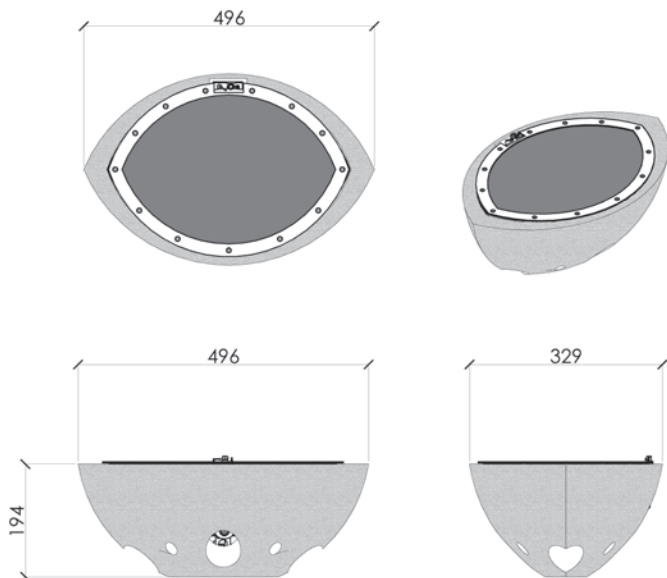

TECHNICAL

Fireplace Opening

- Height - Maximum 540mm (from base of bowl)
- Width – Maximum 646mm to Minimum 500mm
- Depth – Minimum 475mm

The above is to comply with the CE approval. The bowl can be installed outside of these dimensions at the discretion of the installer.

- When buying the 7.4Kw version and air vent is not required within the room.
- The bowl is made of solid stone or metal. The metal is polished for 18 hours.

Large Oval

DESCRIPTION

The LARGE OVAL gas fire bowl is a truly stunning design that has been used in properties around the world. This 700mm wide gas fire uses special matting which creates a unique flame effect which has won awards for design and technology. The gas fire bowl is available in either White or Black stone, Polished Aluminium or Bronze. The gas burner can be purchased for Natural Gas or LPG/Propane and in various power ratings, 12.9Kw or 16Kw. The fire is operated by a manual control. Remote control is available upon special request.

The LARGE OVAL has a width of 700mm and a power rating can be used in many installation styles and is perfect for commercial properties where a feature fireplace is required to attract visitors. The large oval bowl looks amazing when installed in one of our table and canopy designs. Standard single and double sided enclosures are also available in black or brushed steel and various natural stone types. You can purchase a full fireplace package or just the bowl.

For bespoke or commercial installations call our sales team with your requirements.

SPECIAL FEATURES

- Unique CVO Gas Fire Burner Technology.
- Large Fire with Powerful Gas Burner.
- Many Installation Styles and Finishes.
- Proven, Reliable Design, Sold Since 1999.

The above is to comply with the CE approval. The bowl can be installed outside of these dimensions at the discretion of the installer.

- This is a high power fireplace at 12.9Kw (NG) or 16.0Kw (LPG).
- The bowl is made of solid stone or metal. The metal is polished for 18 hours.

Circular

DESCRIPTION

The CIRCULAR gas fire bowl at 490mm in diameter is perfect for centre of room and double sided installations. This iconic gas fire bowl design has been used in properties around the world and is stunning when used with our standard round table and cone canopy. The gas fire bowl uses special matting which creates a unique flame effect. The gas fire bowl is available in either White or Black stone, Polished Aluminium or Bronze. The gas burner can be purchased for Natural Gas or LPG/Propane and in various power ratings, 7.4Kw or 9.5Kw giving either a small or large flame effect. The fire is operated by a manual control; remote control is available upon special request.

The CIRCULAR can be used in many installation styles – contemporary or traditional. You can purchase a full fireplace package of gas fire bowl and either single or double sided enclosure, or purchase the bowl only for use in an existing enclosure. Enclosures are available in black or brushed steel and various natural stone types.

To discuss our full round table gas fire design and bespoke fireplace installations call sales.

SPECIAL FEATURES

- Unique Round Gas Fire Burner Technology.
- Solid Stone or Hand Polished Cast Metal.
- Perfect for Centre of Room Fireplace Designs.
- Installed in Hotels around the World.

TECHNICAL DATA

FIRE TABLE & CANOPY

DESCRIPTION

Our gas fire bowls are perfect for use as part of a central fireplace feature. We have supplied our FIRE TABLE & CANOPY designs to properties all around the world. They have been installed in both commercial and domestic properties. Our range includes a standard set of tables and canopies that can be used with the bowls.

Our fire tables and canopies can be seen in bars, restaurants and hotels all across Europe. A perfect example can be seen at the Eperney Bar inside the Mailbox in central Birmingham. This installation includes a circular gas fire bowl and canopy with wooden cladding. Seating has been designed around the fire table for customers to sit around the perimeter and enjoy this truly impressive and stunning fireplace. For more viewing locations around the UK please call sales with your location details.

OPTIONS

- Choose from Bowl, Cube & Ribbon gas burners.
- Round, Square and Rectangular Tables.
- Various Canopy designs and finishes available.
- Bespoke versions available upon request.

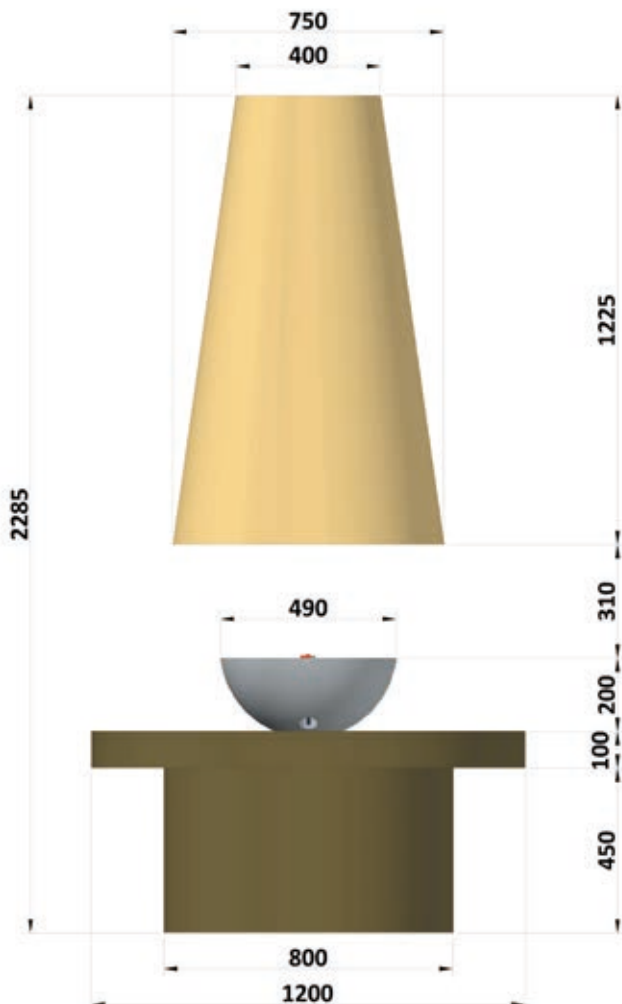

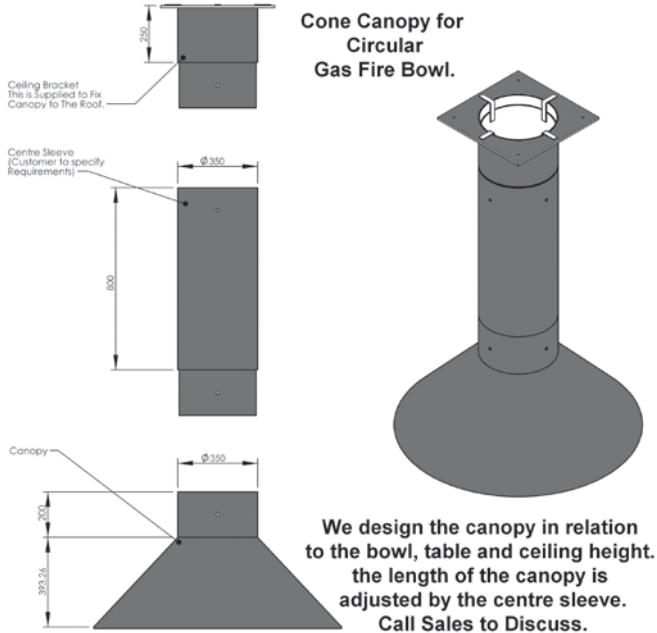

TABLES:

We can supply a standard table from our range or bespoke versions. The standard round table has a stone top in either white marble, travertine or black granite. The table has been designed with a standard cone canopy. Seats can be supplied upon request.

CANOPIES:

The standard canopy has a roof mounting plate. The design of the canopy is critical to the performance of the fire, we adjust the height of the canopy in relation to the ceiling, table and gas burner. Canopies are available in all RAL colour, Bronze or Stainless Steel.
