

Plank Partners: Briefing document

Our story:

[Plank Hardware](#) was created for those who won't compromise on their Pinterest #interiorgoals. We design stylish hardware products in high quality materials, and offer them to you for a pretty fair price — premium, grid-worthy finishing touches that don't cost a fortune.

What's more, we're on a mission to inspire a generation of new home owners and kick-ass DIYers. Sick of that hand-me-down wardrobe? Hack it. Unhappy with your kitchen hardware? Tweak it. Say no to mediocre metalwork — roll up your sleeves, dial up your creativity and make that moodboard you've manifested a reality.

Pamper your rental 🛠️

Long gone are the days where we settle for bog-standard rentals 🧑🏻

With a tool kit in-hand, the sky's the limit when adding personality to your rented space. That includes applying peel-and-stick vinyl before wallpapering, introducing statement decor and upgrading hardware.

We'd like to see you pampering your rental home. Whether it's your entire kitchen or just a bathroom vanity, document the entire process, including tips n' tricks to help keep the landlord happy. A budget breakdown could help show how you spared your wallet, too 💰

What we're looking for:

1) Instagram-first deliverables:

- **1 x Video**, optimised for Instagram Reels, which demonstrates your full project process; before, during and after. Document the unboxing experience of your hardware, highlighting how it suits your rental-friendly project. Provide a budget breakdown, to showcase how you spared some cash along the way. Consider audio, whether it's a relevant song, or even narration that talks the viewer through your thought process. Alternatively, text overlay could make your video content really dynamic and engaging. Between 40 and 60 seconds is probably the sweet spot.
- **1 x Shorter video**, optimised for Instagram. This can be a creative transition video to show the transformative impact of your hardware. Or, a rundown of your project's rental-friendly hacks, including our hardware. Between 15 and 20 seconds is recommended.
- **5 to 6 High-res images** that show your full project process; styled and unstyled, before and after (ideally at the same angle) & close ups details.
