

Pi Ring

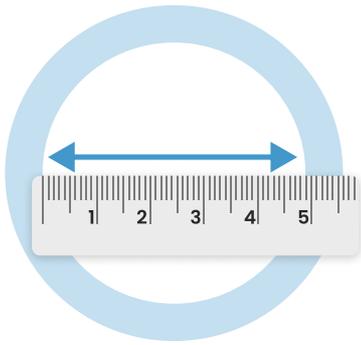

Size Guide

Use this size guide to measure your ring size

1. What is Ring Diameter and Circumference?

2. How to measure the Ring Diameter?

Step 1- Select an existing ring that fits your desired finger.

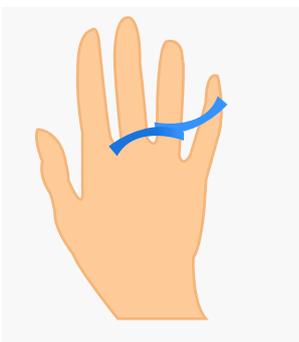

Step 2- Measure the internal diameter of the ring (in mm).

Step 3- Use the below chart to determine your ring size.

Diameter mm	15.9	17.12	17.93	19.15	19.96	21.18	21.79
Pi Ring	16	17	18	19	20	21	22
Indian Ring	10	13	16	20	23	26	29

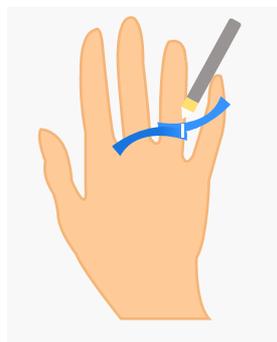

Pi Ring

3. How to measure the Ring Circumference?

Step 1

Wrap a strip of paper around your finger where you'd like your ring to be.

Step 2

When you have wrapped it around your finger and the paper meets the starting edge, gently fold it or mark a point using a pen.

Step 3

Lay the string or paper out against a ruler or tape measure, and measure the length (mm) from its end to the point you have folded/ marked. Use it to find your size using our Ring Size Chart below.

Circumference mm	50	53.8	56.3	60.2	62.7	66.6	68.5
Pi Ring	16	17	18	19	20	21	22
Indian Ring	10	13	16	20	23	26	29
