

Steps for striping your Ceremonial Arrow

1. Using the chart below, determine the Ranks & Awards you have earned.
2. Either lay the arrow flat on table, **or better yet, have it firmly attached to your plaque (for better centering and working around the brass hooks that hold the arrow.)**
3. Lay out the strips in front of your arrow in the proper order.
4. Peel off the backing, and lay the middle of the strip across the arrow shaft (but do not firmly attach yet.)
5. Repeat step 4 for each strip, leaving a small space between strips. (See picture below)
6. Once all strips are loosely attached, make any adjustments to positioning.
7. Firmly attach strips by pressing down on one end of the strip then the other.
8. Repeat step 7 for each strip.
