# ARM YOURSELF WITH THE RIGHT WELDER

Ranger<sup>®</sup> 225

Shown: Ranger 225 (K2857-1)

# **KEY FEATURES**

The Ranger 225 welder/generator is a multi-process, engine-driven welder designed for a variety of processes — stick, TIG, MIG or flux cored. Whatever the process or application, arm yourself to get the job done and get it done right the first time.

- · Totally enclosed case protects the engine and limits noise
- · Smooth DC welding output
- · 10,500 Watts AC generator power

Processes »

Stick, TIG, MIG, Flux-Cored

Output »

Input »

**Product Number »** K2857-1 Ranger 225

# **FEATURES**

#### » Totally Enclosed Case

- · Engine is fully protected.
- · 3 service access doors.
- Low noise 76.4 dBA sound level at 23 ft. (7 m). 100.7 dB sound power (Lwa) at rated output.

#### » Versatile DC Welding

- Smooth DC welding output for a broad range of stick electrode types.
- MIG, flux-cored and TIG capable (with optional equipment).

# » 10,500 Watts Peak Single-Phase AC Generator Power

- Peak for motor starting.
- 9,000 watts continuous power for generator, plasma cutter or inverter welder.
- · Lights, grinder, power tools.

## » 23 HP Kohler® Gasoline Engine

- 2 cylinder, 4 cycle overhead valve air-cooled design.
- · Oil drain extension for easy oil changes.
- · 12 gallon tank for extended run times.
- Only 1.5 gallons/hour at 210 amps DC, 25V, 100% duty cycle. Visual fuel level gauge on both sides of unit.

#### » Rugged Reliability

 Welding and AC generator outputs rated at 104°F (40°C).

#### **PERFORMANCE**

#### **Arc Performance**

- Smooth DC welding output for a broad range of stick electrodes, such as Lincoln Excalibur® 7018 (AWS E7018) and Fleetweld® 5P+® (AWS E6010). Also capable of MIG, flux-cored, and TIG welding.
- Choose DC(+) for a deep penetrating arc or DC(-) for less penetration on thin sheet metal.
- Rated 225 amps/25 volts/40% duty cycle and 210 amps/25 volts/100% duty cycle for CC and 200 amps/20 volts for CV. All rated outputs at 104°F (40°C).
- Simple Output Range Selector can be used to select one of three amperage ranges with generous overlap for Stick/TIG welding, or one Wire Feed welding range.
- Fine adjustment control allows you to dial in just the right welding output for each application.
- Add productivity with self-shielded flux-cored CV wire welding. Compatible with Lincoln Electric LN-25 PRO° and Activ8° Across-the-Arc wire feeders for use with a variety of wire electrodes.
- Expand to AC TIG welding with optional Square Wave\* TIG 200 (powered by AC generator power from the Ranger 225) for aluminum and other alloy welding.

#### **AC Generator Performance**

- 10,500 watts peak AC generator power. Most peak power in its class. Use for motor starting.
- 9,000 watts continuous AC generator power. For high capacity needs such as powering a Tomahawk\* 1000 plasma cutter, or an Invertec\* inverter welder or a Square Wave\* TIG 175 welder. Also for lights, a grinder or other power tools.
- Delivers up to 38 amps from the single 120V/240V full-KVA receptacle. Standard circuit breakers protect the machine as well as your power tools.
- Delivers up to 40 amps from two 120V duplex receptacles.
- Optional GFCI (Ground Fault Circuit Interrupter) Kit available for additional protection from electrical shock.
- Simultaneous welding and AC generator power power up to 3,950 watts while welding at 145 amps (AC generator power is reduced when welding simultaneously per table below).
- Take on more jobs plug in an optional Tomahawk 1000 plasma cutter to cleanly cut metal.

#### SIMULTANEOUS WELDING AND POWER LOADS

| DC Welding Output<br>(Amps) | Permissible Power<br>(Watts) |
|-----------------------------|------------------------------|
| 0                           | 9,000                        |
| 90                          | 6,000                        |
| 145                         | 3,950                        |
| 225                         | 0                            |
|                             |                              |

## **FEATURES**

- Top-of-the-line OHV engine: Kohler Command® 23 HP CH730.
- Three engine doors provide machine protection and easy service access.
- Easy to Maintain Engine requires an oil change only every 100 hours and every 200 hours for the oil filter.
- Electric Start Switch for easy starts. Switch combines OFF, START, and IDLER functions into one simple, compact, easy to use switch.
- Circuit breaker protects battery ignition circuit.
- Convenient truck or trailer mounting with front and rear holes in base.
- Fuel level slots in both sides of the base with a decal to easily read the fuel level in the tank. Helps you avoid running out of fuel during critical jobs.
- Large top fuel filler neck is easily accessed for refueling.
- Oil drain valve (no tools required) with removable extension tube.
- Easy access battery cover.

## **KEY CONTROLS**

- **Engine Hour Meter** 1.
- 4-Position Output Range Selector 2.
- Circuit Breakers
- 120 Volt AC Receptacles (NEMA 5-20R)
- 5. **Output Stud Covers**
- **Ground Stud** б.
- 120/240 Volt AC Full KVA Receptacle (NEMA 14-50R) 7.
- 8. Fine Output Control
- Engine Choke Control (Stainless Steel Cable)
- Engine Start Switch with Idler Control

#### **QUALITY AND RELIABILITY**

- Oil dip stick, filters, spark plugs, etc. are easily accessed with left, right and top engine doors. Left and right doors are removable, if desired, for service.
- Adjust exhaust direction with top-mounted 360° rotatable exhaust muffler. Muffler made from aluminized steel for long life.
- Red and black powder paint finish offers increased durability with added protection from rust and corrosion. Also ultraviolet resistant to better retain color and gloss.
- Longer engine life, reduced noise emissions and greater fuel economy with automatic engine idler.
- · Conveniently located engine maintenance label under top engine door.

- · Automatic engine shutdown protection for low oil pressure.
- 435 cold cranking amps with the Group 58 battery for extra starting capacity in cold temperatures.
- Dependability and long life aided by all-copper windings in rotor and stator with high quality insulation.
- Manufactured under a quality system certified to ISO 9001 requirements.
- · Canadian Standards Association (CSA) certified.
- Three-year Lincoln Electric warranty (parts and labor) on welder (engine is warranted separately by the manufacturer).
- Backed by Lincoln Electric's Service Parts Commitment—We will ship in-stock parts within 24 hours of receipt of the order to anywhere within the U.S.

<sup>&</sup>lt;sup>[5]</sup> Kohler warranty is 3 years.

When welding, available auxiliary power will be reduced. Output voltage is within +\- 10% at all loads up to rated capacity.

 $<sup>^{\</sup>scriptsize (j)}$  120V will operate either 60 Hz or 50/60 Hz power tools, lights, etc.

 $<sup>^{\</sup>text{\tiny{[4]}}}$  Circuits cannot be wired in parallel to operate the same device.

#### **RECOMMENDED ACCESSORIES**

#### **GENERAL OPTIONS**

Kohler Tune-Un Kit For routine engine maintenance. Includes (2) spark plugs, (1) fuel filter, (1) air filter, (1) oil filter, [2] 1 Ot. 10W 30 Oil.

Power Plug Kit (20 amp)

Provides four 120V plugs rated at 20 amps each, and one dual voltage, full KVA plug rated at 120/240V, 50 amps. 120V plug may not be compatible with common household receptacles. Order K802N

Full-KVA Power Plug One dual voltage plug rated at 120/240V, 50 amps. (NEMA 14-50P) Order T12153-9

Full-KVA Adapter Kit

'rovides convenient connection f Lincoln Electric equipment aving a 240V AC 1-phase plug (NEMA -50P) to the full-KVA receptacle on ngine-driven welders. Urder K1816-1

GFCI Receptacle Kit

Includes one UL approved 120V ground fault circuit interrupter duplex type receptacle and installation instructions. Replaces the factory-installed 120V duplex receptacle. Each receptacle of the GFCI duplex is rated at 20 amps. Maximum total current from the GFCI duplex is limited to 20 amps. Two kits required. Order K1690-1

Spark Arrestor Kit

Attaches to muffler exhaust tube. Virtually eliminates spark emissions Order K1898-1

Canvas Cover

To protect the Ranger 225 when not in use. Made from attractive red canvas material that is flame retardant, mildew resistant and water repellent. Order K886-2

All-Terrain Undercarriage

Portable cart for moving the engine drive by hand over various jobsite surfaces. Heavy-duty design with pneumatic or Flat-Free tires. Order 1737-4 Pneumatic Tires Order 1737-3 Flat-Free Tires

Factory Undercarriage

Portable cart for moving the engine drive by hand over smooth surfaces. Heavy-duty design with tires and swivel castors.

Order 1770-2 Pneumatic Tires Order 1770-3 Flat-Free Tires

Welding Gas Cylinder Holder

Holds welding gas cylinder. Compatible with the following undercarriages: K1770-2 and -3, K1737-3 and -4

Square Wave TIG 200

WIRE FEEDER OPTIONS

One-Pak®

This 46 lb. (21 kg) TIG and stick welder includes adjustable AC Frequency Control and AC Balance for great results on aluminum, pulse mode and 120V or 230V input power capability. Order K5126-1

LN-25X°/Magnum°PRO Curve™045C

Includes: LN-25X Feeder with

Magnum® Pro Curve™ welding

gun Ready-Pak® 15 ft. (4.6 m)

(K2951-2-10-45); Drive Roll Kit

Wire (KP1697-045C)

Order K4100-1

.040-.045 in (1.0-1.2 mm) Cored

CrossLinc® Technology (K4267-1);

LPG Tank Holder

Holds LPG tank, Compatible with the following undercarriages: K1770-2 and -3. K1737-3 and -4. Order K1745-2

Fender & Light Kit

Small Two Wheel Welder Trailer

For heavy-duty road, off-road, plant and yard use. includes pivoting iack stand, safety chains, and 13 in. (330 mm) wheels. Stiff .120 in. (3.0 mm) welded rectangular steel tube frame construction is phosphate etched and powder coat painted for superior rust and corrosion resistance. Low sway suspension gives outstanding stability with manageable tongue weight. Wheel bearings are packed with high viscosity, high pressure, low washout Lubriplate™ grease. Includes a Duo-Hitch®, a 2 in. (51 mm) ball/lunette eye combination hitch. Overall width 60 in. (1524 mm). Overall length

110 in. (2794 mm).

K2635-1 Trailer K2639-1 Fender & Light Kit K2640-1 Cable Rack

LN-25X / K126™ PRO 1/16-5/64C One-Pak®

Includes: LN-25X Wire Feeder with CrossLinc® Technology (K4267-1); K126™ PRO Innershield® 350A FCAW-SS Welding Gun 15 ft. [4.6 m] 1/16-5/64 (K126-12); Drive Roll Kit 5/64 in. (2.0 mm) Solid/Cored Wire (KP1697-5/64); Drive Rool Kit 1/16 in. (1.6 mm) Cored Wire (KP1697-1/16C) Order K4100-2

POWER MIG® 180C

Premium compact wire welder with continuous voltage control for MIG and flux-cored welding. 30 to 180 amp output range. Get input power from the AC generator of the enginedriven welder with the K1816-1 Full-KVA Adapter Kit (required). Add the K2532-1 Magnum® 100SG Spool Gun for aluminum MIG welding. Order K2473-2

STICK OPTIONS

Accessory Kit

For stick welding. Includes 35 ft. (10.7 m) #2/0 electrode cable with lug, 30 ft. (9.1 m) #2/0 work cable with lugs, headshield, filter plate, work clamp and electrode holder. 400 amp capacity. Order K704

Accessory Kit

For stick welding. Includes 20 ft. (6.1 m) #6 electrode cable with lug, 15 ft. [4.6 m] #6 work cable with lugs, headshield, filter plate, work clamp, electrode holder and sample pack of mild steel electrode. 150 amp capacity. Order K875

WIRE FEEDER OPTIONS

Magnum° 100SG Spool Gun Designed to easily feed 4 in. (102 mm) diameter 1 lbs. (0.45 kg) spools of .030 in. (0.8 mm) or .035 in. (0.9 mm) diameter SuperGlaze® aluminum MIG wire. Includes gun, adapter kit, .035 in. (0.9 mm) contact tips (qty. 3), gas nozzle, and a 1 lb. (0.45 kg) spool of SuperGlaze" 4043 .035 in. (0.9 mm) MIG wire. Packaged in a convenient carrying case.

Pro-Torch™ PTA-26V TIG Torch Air-cooled 200 amp torch (2 piece) equipped with valve for gas flow control. 25 ft. (7.6 m) length. Order K1783-9

Magnum<sup>®</sup> Parts Kit

**TIG OPTIONS** 

Provides all the torch accessories you need to start welding. Parts kit provides collets, collet bodies, a back cap, alumina nozzles and tungstens in a variety of sizes, all packaged in an easy to carry reclosable pack. Order KP509 for PTA-26V

PLASMA CUTTING

Tomahawk 1000

Order K3269-1

Cuts metal using the AC generator power from the engine-driven welder. Requires the T12153-9 Full-KVA Power Plug (1-Phase). Order K2808-1

# CUSTOMER ASSISTANCE POLICY

The business of The Lincoln Electric Company is manufacturing and selling high quality welding equipment, consumables, and cutting equipment. Our challenge is to meet the needs of our customers and to exceed their expectations. On occasion, purchasers may ask Lincoln Electric for information or advice about their use of our products. Our employees respond to inquiries to the best of their ability based on information provided to them by the customers and the knowledge they may have concerning the application. Our employees, however, are not in a position to to verify the information requirements for the particular weldment. Accordingly, Lincoln Electric does not warrant or advice does not expect to such information or advice. Moreover, the provision of such information or advice does not create, expand, or alter any warranty on our products. Any express or implied warranty that might arise from the information or advice does not create, expand, or alter any warranty on our products. Any express or implied warranty of fitness for any customers' particular purpose is specifically disclaimed.

Lincoln Electric is a responsive manufacturer, but the selection and use of specific products sold by Lincoln Electric is solely within the control of, and remains the sole responsibility of the customer. Many variables beyond the control of Lincoln Electric affect the results obtained in applying these types of fabrication methods and service requirements.

Subject to Change – This information is accurate to the best of our knowledge at the time of printing, Please refer to www.lincolnelectric.com for any updated information.
