

Model RBS-103QR-AL
Rubber Based Sign Stand

“You can’t be all things to all people”

That is true for most things in life, but not the RBS rubber base stand! This unique one base ® system is quick and easy to set up and even easier to modify to become one of several traffic control product. This morning it is a portable sign stand and this afternoon it is a fence post....tomorrow it is a delineator post and the day after that it can be a vertical panel. Literally by releasing the lever mechanism, the RBS can do all this and more. it won’t make coffee and it can’t walk your dog, but it can make your life a lot simpler if you have a need for temporary traffic control and are working with a limited budget!

New Snap Release Mast

The improved snap release mast can accept optional accessories at the touch of a button. As always, the patented auto-latch design holds the roll-up sign in the correct position and at the correct height.... eliminating any guess-work.

Universal Bracket

The optional universal bracket allows you to use any brand of roll-up sign with the Bone Safety rubber base sign stand.

MULTIFUNCTION

Not only does the RBS stand make a great sign stand, it can also be used for a variety of other traffic control devices like vertical panels and delineator tubes.

Easy to store and easy to use, the RBS rubber base stand is as practical as it is useful. All of the

RBS components are interchangeable in seconds, getting you in and out of the right-of-way in seconds. Great for those spots where space is limited and traditional stand legs present a trip hazard.

Easy to store and easy to use
