# HOW TO JUMP A CAR BATTERY

Courtesy of EVERYDAYCARRYSUPPLY.COM

1 First, connect one end of the POS cable to the positive post on the dead battery

2 Then, connect the other end of the POS cable to the positive post on the good battery

3 Now, connect one end of NEG cable to NEG post on good battery

4 Lastly, connect other end of NEG cable to unpainted metal on car with dead battery

Dead Battery

Unpainted metal on engine block or frame
