

KONKRETUS

All of our designs are original creations and are protected by intellectual property rights. 2023

**Embrace the natural beauty
of concrete. Designed & carefully
handcrafted, every piece is unique.**

We believe in the power of design as a tool for transformation & reinterpret concrete to give the world sophistication and sobriety in each piece.

We create products to build a lifestyle that accompany everyday moments within your home and city based on design, fashion, art and well-being. Pieces that attract the designer that we all carry inside.

LOTUS

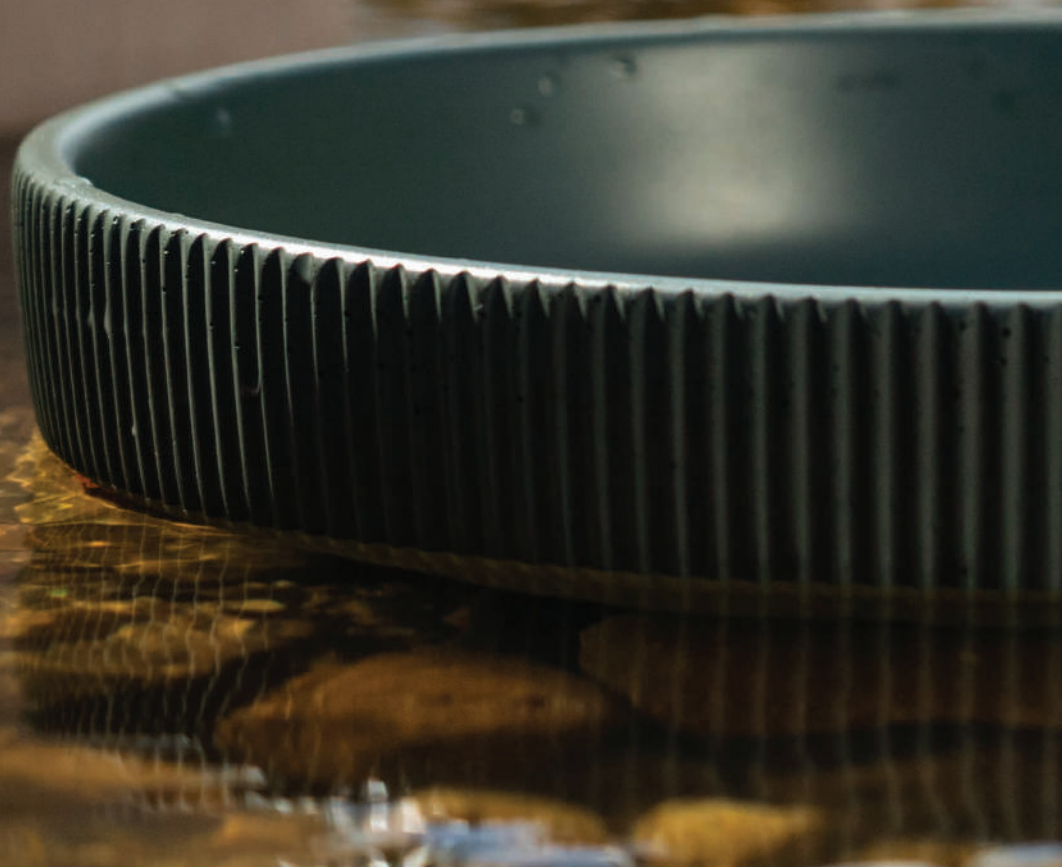

Award winning design

Lotus is a product that results from a profound observation and contemplation of nature, specifically the river flora of the Amazon basin. Its shape is originated from the abstraction of the leaf of a plant know as Victoria Regia, commonly known as Lotus.

Using a high-performance concrete mixture, Lotus evokes the textures and shapes of Victoria Regia, generating a direct connection with the tropic and the Amazon basin. Lotus is a handcrafted, vessel-type sink, unlike anything currently found in the market. It's intended for spaces where visual impact is paramount, like guest bathrooms and bathrooms in bars, restaurants, and high-end hotels. It showcases all the endless possibilities of concrete, providing a pleasant surprise whenever the customer comes into contact with it.

red**dot** winner 2022

A dark, moody photograph of a body of water at night. The water is dark and still, reflecting the faint light from the sky. In the foreground, there are dark, tangled branches or reeds that frame the scene. The overall atmosphere is quiet and somewhat somber. The text "WELCOME HOME" is overlaid in the center in a clean, white, sans-serif font.

WELCOME HOME

What to expect.

IT'S SEALED

Concrete is a material that by nature absorbs liquids, as well as many other materials (Marble, wood, stone, etc). For this reason our sinks are sealed with the best sealant on the market.

IT'S HAND MADE

No two pieces are the same. Each piece is made by hand and there will be differences between them. Each of our sinks is totally unique

COLORS

Colors in concrete are seldom solid and homogeneous. In each piece there will be different shades of the same color, which give each of our products a special character.

PORES

Pores are a natural characteristic of concrete (as well as the grain in stone or knots in wood), that is why we do not hide them, besides they give the product a special character and make it look honest.

WEIGHT

A sink made of concrete is not essentially heavier than its comparable sink made of porcelain or similar materials. Countertops or vanities don't need any special characteristic to hold our sinks.

MEASURES

Due to the way it is manufactured, the measurements of each product may have a variation of $\pm 1/2$ ".

We love living in colors.

Concrete is made of natural materials.
Pieces may have subtle differences in color, pores, texture or shine.

 <p>COAL BLACK</p>	 <p>CORAL LIGHT RED</p>	 <p>ANTILLES ORANGE</p>	 <p>TERRACOTA RED</p>
