

MASTERPAN®
feel like a chef™

Masterpan is an established American Cookware brand that aspires to be the brand of choice for everybody who loves to cook. We believe that the kitchen is the heart of the home. We are passionate about both cooking and the joy that can come from sharing dining experiences with friends and family. At Masterpan we want everybody to love their cooking and mealtime, so when we design a product, we do so with the end result in mind. Great food, cooked with quality products at accessible prices. Feel like a chef when you cook with Masterpan!

Our Story

Masterpan was founded in 2015 by enthusiastic home chef, Raj Nagrani, who has been cooking meals for his family since childhood. He believes that quality cookware is the key ingredient in any recipe. This love of cooking and dining inspired Raj to establish the Masterpan brand.

A lifetime spent searching for the best products led Raj to the conclusion that products were either too expensive or affordable but lacking in quality and reliability. Masterpan was born out of the desire to bridge the gap by producing innovative, high-quality and well-designed products that delivered outstanding results at affordable prices.

After many months of research, testing and development, the first Masterpan product, the 5-section frying pan was launched with Kickstarter funding. It was an instant success and so the Masterpan brand was born. Since then, Masterpan has expanded into a complete line of essential cookware and kitchen tools that deliver incredible value, great designs and most importantly outstanding functionality.

Stovetop Oven Grill Pan With Heat-in Steam-out Lid, Non-stick Cast Aluminum, 12", Red

The one of a kind MASTERPAN Stovetop Oven Grill Pan with a 12" diameter. The only pan that has the features of an oven but can be used on a stovetop. Instead of waiting to heat up your oven and then baking your food for lengthy periods of time, use our stovetop oven to cook frozen foods and other foods you would put in the oven. A conventional lid will trap heat but also keep moisture in, The steam really only has 1 small hole to escape from which will result in food staying wet and moist and water vapor collecting at the bottom of your lid slowly dripping back into the pan. On the other hand our patented lid was designed to solve this problem, specially designed with over 5000 perfectly sized laser etched holes that release all the vapor and yet still retains the heat in.

- CAST ALUMINUM
- LOW AND WIDE GRILL RIBS
- STOVETOP OVEN
- SILICONE GRIPS
- SUPERIOR NON-STICK & STAIN RESISTANT

Stovetop Oven Fry Pan & Skillet With Heat-in Steam-out Lid, Healthy Ceramic Non-stick Aluminium With Stainless Steel Chef's Handle, Bonus 2 Utensils And Felt Pan Protector Included, 9.5" (24cm) - CLAY (7612C)

unique MASTERPAN 9.5" (24CM) Stovetop Oven Fry Pan & Skillet. The only pan that has the features of an oven but can be used on a stovetop. Instead of waiting to heat up your oven and then baking your food for lengthy periods of time, use our stovetop oven fry pan to cook frozen foods and other foods you would put in the oven. The lid is made from stainless steel for longer lasting use and has over 5000 laser etched holes that act as a splatter guard preventing hot oil splashing out, retain heat on the inside but releasing steam at the same time to avoid condensation on the inside. Creates a close to perfect oven-like temperature on the inside reheating fried food and pizzas to its original hot and crispy state. Lid can be used as a splatter guard for any other pot or pan between 8-9.5" as well. Works great for frozen foods without having to heat up a big oven just for frozen fish fingers or burgers. Ideal in re-creating an oven environment on camping trips and smaller homes with no ovens.

Santoku Knife Stainless Steel Blade Triple Rivet Collection Black Handle & Cover

7" Santoku Knife with stainless steel blade, protective cover, and triple rivet black wooden handle, is just one of 6 styles that come in this range. All our knives have amazingly sharp blades and comfortable, non-slip, ergonomic handles that are sure to cater to all your cutting needs. We do not believe in using fancy words or descriptions such as "3-step method", "12 degree edges", "mirror polished cutting angle", "67-layer", "liquid nitrogen tempered", "military grade handle", "full tang", "semi-stiff blade", yada, yada, yada, to sugar coat our products. You do not need a blade that is going to split a hair in half, what you need is a sharp enough blade that will slice and dice all foods effortlessly which is what all our knives will do.

- **PROVEN WORKMANSHIP**
- **DESIGNED FOR EVERYDAY USE**
- **WELL BALANCED**

Stovetop Oven Fry Pan & Skillet With Heat-in Steam-out Lid, Healthy Ceramic Non-stick Aluminium With Stainless Steel Chef's Handle, Bonus 2 Utensils And Felt Pan Protector Included, 9.5" (24cm) - Classic Grey

Unique MASTERPAN 9.5" (24CM) Stovetop Oven Fry Pan & Skillet. The only pan that has the features of an oven but can be used on a stovetop. Instead of waiting to heat up your oven and then baking your food for lengthy periods of time, use our stovetop oven fry pan to cook frozen foods and other foods you would put in the oven. The lid is made from stainless steel for longer lasting use and has over 5000 laser etched holes that act as a splatter guard preventing hot oil splashing out, retain heat on the inside but releasing steam at the same time to avoid condensation on the inside. Creates a close to perfect oven-like temperature on the inside reheating fried food and pizzas to its original hot and crispy state. Lid can be used as a splatter guard for any other pot or pan between 8-9.5" as well. Works great for frozen foods without having to heat up a big oven just for frozen fish fingers or burgers. Ideal in re-creating an oven environment on camping trips and smaller homes with no ovens.

4 Qt. Cast Aluminum Dutch Oven, Quantanium Non-stick, 9.4" (Black)

The 4QT (9.4") Dutch Oven is built to cook a meal so you will never want to use any other pan. Its made from cast aluminum which is a guarantee that you will own a highly reliable piece of cookware for many years to come. Lighter than cast iron, with a branded non-stick interior for easy clean ups, our cast aluminum Dutch ovens are made especially for those who like to buy true quality. Versatile enough to cook soups, fry meats, stir fry and more, plus serve them all-in-one straight from your cooker to your table. Usable on any heat source such as gas, electric and even induction. The superior Quantanium triple layered non-stick coating by Whitford, provides maximum food release and the rapid, superior heat conduction and self-basting lid interior helps trap steam no matter what you're cooking.

- LIGHTER THEN CAST IRON
