

**VECTOR[®]
COLLECTION**

DESIGNED BY
ROGER THOMAS

SPEAKMAN[®]

Designed in partnership with acclaimed luxury hotel visionary Roger Thomas,
The Vector Collection features a beautifully clean, simple and modern style.

ABOUT THE DESIGNER

ROGER THOMAS

“I’ve designed hotels with Wynn for over 35 years, and in every one of them we’ve used the Speakman Shower Head,” says Roger. “Of all the fittings I’ve used, Speakman was by far the most durable, pairing beauty and function.”

For years, award-winning designer Roger Thomas has been an unstoppable presence in the hospitality industry. Executive Vice President of Design for Wynn Resorts - Roger’s exquisite projects can be seen all throughout the globe.

Our relationship with Roger began years ago with the development of the Opera Collection – a dramatic, timeless selection of fixtures featured in every bathroom of the Wynn Cotai Palace in Macau, China.

Last year we sat down with Roger to create new, more modern bathroom fixtures, now known as the Vector Collection. With Vector, the lines tell the story. They guide the eye throughout the bathroom to create a visual experience that’s enticing at every angle. Each piece in the collection features clean, precise lines accentuated by soft

curves to create an elegant look that’s surprisingly bold.

“I truly am lucky to be working with a manufacturer of this quality and am delighted by Speakman’s energy and style,” says Roger.

VECTOR®

With Vector, the lines tell the story. They guide the eye throughout the bathroom to create a visual experience that's enticing at every angle. Each fixture in this assortment features clean, precise lines accentuated by soft curves to create an elegant look that's surprisingly bold.
