SAUNA BROCHURE

VARIETY OF STYLES
CUSTOM ORDERS
INTERNATIONAL SHIPPING

Established in 2005, ALEKO® Products is located in Seattle, Washington. Since our founding, we have grown to become one of the premier online marketplaces in the US and Canada. Well-known for our hard work and dedication to our customers, we deal in categories as varied as driveway gate openers, patio awnings, pet supplies, and much more.

ALEKOPRODUCTS.COM offers customers an incomparable online shopping experience, with unbeatable prices, friendly and knowledgeable customer service representatives, and lightning fast delivery. We're dedicated to our customers past, present, and future, and will do what it takes to build relationships that go beyond the first purchase into a lasting rapport.

Our success over the years begins and ends with our loyal customers, and we approach each customer like they are a member of the ALEKO® Family. From the beginning, our top priority has been to understand each and every customer's unique needs, and how ALEKO's products can help meet those needs.

Of course, our front line in providing an amazing customer experience are our employees, who are ready at any time to advise a curious shopper in finding that perfect gift or that needed bit of technical assistance.

When you call our customer service line or log onto our website, be assured that we will do everything in our power to assure that you leave with everything you were looking for. We will continue to serve our customers every day with exceptional service, peerless quality, and reliable products.

Without our customers, there would be no ALEKO®, so we strive daily to put our customers as our first priority. With the three pillars of our promise to customers -- Great customer experience, Quality products, and Affordable Prices -- we will provide an integrated brand that serves our customers, our community, and our business.

THE PERFECT ADDITION TO ANY HOME

ALEKO® SAUNAS

ABOUT

Ever dreamed of having a luxurious bath experience in your own home, on your own terms? Personal home saunas are the perfect self-care item for that downtime you seek. Reduce stress, detoxify your body, and improve your mental and physical health.

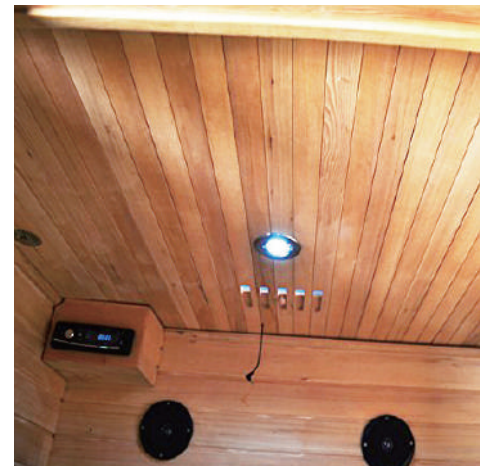

INFRARED SAUNAS

ABOUT

Infrared saunas are a great option for people who prefer lower temperatures than a traditional sauna. Temperatures range from 120 to 150°F. With the same health benefits of a traditional sauna, infrared technology allows for a more directed experience. The best part? Infrared saunas come with an integrated stereo system!

TRADITIONAL SAUNAS

ABOUT

Traditional saunas are a great option for people who love steam and thrive in higher temperatures. Temperatures range from 185 to 195°F. Traditional saunas heat the air itself to induce sweating and provide many health benefits. Some people consider traditional saunas more fun than infrared because you can pour water over the heated sauna rocks to increase temperature and steam in the room.

HEALTH BENEFITS

- **Improves blood circulation**
- **Increases cardiovascular health**
- **Enhances immune system**
- **Relaxes tired muscles and joints**
- **Releases toxins from the body**
- **Relieves stress**
- **Helps to relieve pain**

Sauna Accessories

Sandtimers

ABOUT

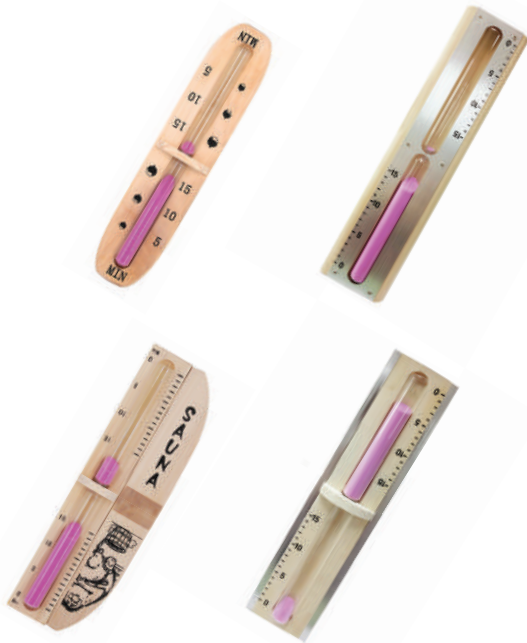

ALEKO's wall-mounted sand timer is especially designed to endure hot and steamy sauna climates. It helps you keep track of time in 15 minute intervals, so you can safely enjoy your sauna experience without overheating.

Sauna Buckets

ABOUT

Boast atmospheric temperature and humidity within your traditional wet dry sauna with an ALEKO® sauna bucket and water scoop. Scoop water from the bucket using the ladle and pour water over the sauna stones in order to generate more steam.

Sauna Stones

ABOUT

Simply use the water from the bucket to pour water over our sauna stones in order to generate more steam and enjoy the relaxing atmosphere of your sauna.

Thermometer/Hygrometer

ABOUT

The Thermo-Hygrometer is designed to reliably show the temperature and humidity of your sauna so you can have a safe experience.

Wooden Clocks

ABOUT

Never lose track of time with our analog clocks that withstand the varying temperature and humidity conditions within a sauna.

Wet/Dry Sauna Heater Stove

ABOUT

Each of the ALEKO® sauna heater stoves are fine-tuned and compatible with our wet/dry saunas. Sauna rocks can be added to enhance user experience and temperature can be controlled with ease with the heater's built-in digital control panel.

Steam Generators

ABOUT

With a built-in digital control panel, our steam generators make heat control a breeze for the best sauna experience and are designed to be durable and energy efficient.
