AW2018/19

WELCOME

The new Elizabeth Parker autumn and winter collection reflects two men's accessory trends with very distinct aesthetics - the extremely popular round cufflink and the cool and crisp minimalist style.

A simple colour palette highlights the elegant charm of the collections' designs and defines the ease in which they can be worn with any outfit.

Alongside the customary cufflinks, tie slides and lapel pins, the Cool and Crips collection also includes a range of new stainless steel cuff bangles.
