

EP30A Rider Pallet Jack

The EKKO EP30A Rider Pallet Jack is designed with the versatility of a pallet jack with full power lifting and driving capabilities. It is ideal for loading and unloading trucks, loading docks, stock rooms, manufacturing floors and warehousing.

Made from high quality steel and components with durable quality drives to withstand any terrain, usage, impact and directional changes for the use of any application with confidence and assurance.

- Load Capacity 6600 lb.
- Fork Size 27x48
- Curtis Instrument Controller
- Raised Height 9.17"
- Lowered Height 3.26"
- Polyurethane Wheels
- Ergonomic Handle and Controls
- Steel Construction
- Robotic Welding
- 3 Year Limited Warranty

Model		EP30A
Lift		Electric
Drive		Electric
Load capacity	(lb.)	6600
Load center	(in)	24
Wheelbase	(in)	67.72
Lowered fork height	(in)	3.26
Lifting height	(in)	9.17
Overall length	(in)	88.58
Overall width	(in)	35.83
Fork size	s/e/l (in)	2/9/48
Outside distance of fork	in	27
Turning radius	(in)	81.34
Lifting speed, laden/unladen	(in/s)	7.5/8
Lowering speed, laden/unladen	(in/s)	36/30
Max gradient performance laden/unladen	(%)	5/15
Brake type		electromagnetic
Drive motor	(W)	3000
Lift motor	(W)	2200
Charger	(V/A)	N/A
Battery voltage/rated capacity	(V/Ah)	24V/280Ah
AC Drive Motor		AC Motor
Noise level at operator seat	(dB(A))	70
Service weight (with battery)	(lb.)	1720
