

AMSTERDAM BOUCLÉ FABRIC

Caring for Bouclé Fabric: Tips for Maintaining Your Textured Upholstery

Vacuum regularly: Use a vacuum cleaner with a soft brush attachment to gently remove dust, dirt, and pet hair from the bouclé fabric. Vacuum your upholstery regularly to maintain its appearance and prevent dirt buildup.

Clean spills immediately: In case of a spill, blot it gently with a clean, dry, white cloth or paper towel. Avoid rubbing, as this may damage the fabric's textured loops.

Spot cleaning: Test any cleaning solutions on a small, inconspicuous area before applying it to a visible stain. Use a mild, water-based cleaning solution for bouclé fabric. Gently blot the stained area, working from the outside of the stain towards the center. After cleaning, blot the area with a dry, white cloth to remove any excess moisture.

Dry the fabric: Allow the cleaned area to air-dry completely. Avoid using heat or direct sunlight to speed up the drying process, as this may damage the fabric.

Keep away from direct sunlight: Prolonged exposure to sunlight can cause the fabric to fade over time. Position your bouclé upholstery away from direct sunlight or use window treatments to protect the fabric.

Protect from pets: Keep pets off the bouclé upholstery or use a protective cover to minimize the risk of scratches, stains, or hair accumulation.

By following these care instructions, you'll extend the life of your bouclé fabric and maintain its unique texture and appearance for years to come.
