

Please read the Safety Guidelines above before you start to assemble the product. To prevent scratching of the surface, place the top on a protected surface or carpet and make sure that the underside of the product is facing upwards. To allow you to work comfortably, ensure ample space around the top.

Secure the legs in position using the screws provided. **Please insert all of the screws loosely before tightening.** Due to narrow tolerances if one screw is tightened before others are fitted loose, this can cause misalignment. **3** Utilize a cross-head screwdriver or an offset screwdriver to tighten the screws, ensuring a secure attachment of the legs.

Avoid overtightening the screws.

Place the product upright and find the best placement on your table or desk. Please do not overload the riser. Max 10 Kg distributed weight.
