

Vent-Free Gas Water Heater

Model **D-WH04**

Specifications

Model	D-WH04
Fuel Type	LPG (Propane) Only
Heat Input	38,000 BTU/h
Flow Rate	1.6 GPM (5.5 L/min at $\Delta T=77^{\circ}\text{F}$)
Water Pressure Range	1.45–120 PSI (0.01–0.83 MPa)
Connections	G 1/2" (Gas Inlet & Water Inlet/Outlet)
Power Supply	2 × 3V D-Cell Batteries
Display	LED Display
Heat Exchanger	2.4 lb Oxygen-Free Copper
Dimensions	12" × 15" × 4.7"
Weight	8.6 lb

Features

Instant & Efficient Hot Water

- 38,000 BTU/h heating capacity delivers 1.6 GPM of continuous hot water
- Direct-Vent-Free Design – No chimney or flue required for easy installation
- Low Pressure Startup – Works from just 1.45 PSI, ideal for off-grid use

Safe & User-Friendly

- Dual Knob Control – Precise and independent adjustment of water and gas
- ODS safety system – Automatically shuts off gas if oxygen levels drop
- Mechanical On/Off Switch – Simple and reliable manual operation

No Electricity Needed

- Battery-Powered Ignition – Runs on 2 × D-cell batteries (NOT included)
- Bright LED Display – Shows real-time water temperature for precise control

Compact & Portable

- Ultra-Lightweight (8.6 lb) – Built-in carry handle for easy transport
- Space-Saving Design (12" × 15" × 4.7") fits RVs, cabins, tiny homes, boats
- Quick Wall-Mount Setup for indoor or sheltered outdoor use
