Additional notes & guidelines:

- Please note that due to the nature and availability of the raw material, final sizes may differ and a tolerance of 5% should be allowed. Where possible we will match sizes on orders of multiple units.
 - Please note that shades above 3.5kg will need reinforced suspension cable rather than hanging on a flex.
 - Clean with a lightweight, dry duster.
 - Please note that due to the natural materials used, colour of the heather will fade over time.
