

NURU LIGHT

Sasa works' take on the desk light, that is both functional and playful; working with the idea of heavy and light. Each light will be unique, due to the hand-made nature of this light.

HI420 X DI900 mm W 4kg / 40kg when crated for international shipping

- *SKU code:* SAS008
- *Material:* Steel and Brass with opaque acrylic cover on shades.
- *Lead time:* 10-12 weeks
- *Flex length:* 1m from top of stem (custom lengths can be made to order (POA))
- *Country of wiring & plug available:* UK (international driver available POA)
- *Bulb included:* yes (Parathom LED Pin GY6.35 12 V)
- *Bulb holder:* Halogen G4 Lamp Holder Screw
- *Flex & plug colour:* Black rubber cable
- *Metal finish:* mild steel & brass
- *Bulb recommended:* 30watt equivalent warm light capsule bulbs from Osram. (supplied)
- *Wattage:* 30W LED recommended
- *Voltage:* 12V with 240V LED driver (supplied)
- *Driver details:* Full range universal AC input, fully encapsulated to IP67, fully isolated plastic case, built in 3 in 1 dimming function, short circuit/ overload/ over voltage & over temperature protection. compliance to worldwide safety regulations for lighting, EMC compliance to EN55015.

Additional notes & guidelines:

- Light should be installed by a qualified electrician and with a carpenter if additional ceiling structural support is necessary to conceal the LED driver. The light is powered by 12v - with an LED driver that is concealed within the ceiling cavity. The LED driver should be connected to the mains 240v.
 - The cable is approximately 100cm from top of stem, and can easily be lengthened by an electrician if necessary. An additional ceiling rose (can be supplied POA) will allow for access to the LED driver.
 - The light can be hung - or be supported with 2 diagonal braces to fix its position.
 - Check loading limitations of ceiling prior to install. Additional structural support may be necessary.
 - LED driver requires concealing within ceiling cavity and can be accessed from the ceiling rose.
 - ~~Brass elements can be cleaned and polished with brasso; Steel can be polished with crystalline metal wax.~~
 - Occasionally and only if needed the swivel joints can be oiled.
