
WELCOME DINING TABLE

Drawing inspiration from building facades and historical surface application of tiled buildings, the 8-seater Welcome Dining Table is an evolution of ceramicist Matthew Raws Welcome cabinet range. The Table has a solid oak top with two fully tiled cylindrical columns at the base, finished with two inlaid circular tiled areas on the surface, as though the columns emerge through the timber top.

W2300 x D930 x H750mm
W90.5 x D36.6 x H29.5 inches
Weight 120kg

- *SKU Code:* MRW048
- *Material:* English Oak table top with metal strengthening bars and mounting discs on tiled bases (stoneware glazes on tiles with adhesive, silicone and grout on plywood cores)
- *Lead times:* 12 - 14 weeks

Customisable options:

- *Size:* Bespoke sizes possible dependent on size and estimated finished weight. A minimum length of 1.8m (4-6p) and maximum length of 2.6m (10-12p) is advised before a redesign of the base dims may be required to avoid issues with leg room, weight-bearing or impact on the integrity of the design. Changes beyond these simple scaling parameters are subject to a re-design fee and dependant on complexity
- *Colour:* Tile finish samples are available in the following options: Olive, Slate, Midnight & Chalk with paired grouts in Silk, Caribbean and Terracotta. Custom timbers can be discussed (POA). Bespoke glaze colours can also be discussed. Please note that custom grout colours from Mapei (Ultracolour) need to be colour matched to the silicone used on the tiled discs

Additional notes & guidelines:

- Colour tone and grain of the timber may vary between batches. Due to the nature of the glazes used, there will naturally be variance in tone between each tile and different batches
 - This table will be delivered in 3 parts, the columns will be crated and required to be assembled with the table top
 - Please take special care when delivering due to the delicate nature of the materials
-

WELCOME DINING TABLE

- Installation will require two people. Two metal plates to be screwed to the top of the columns prior to attaching the table top
- This product is fragile. Handle with care
- Heavy item. Lift carefully and place down straight - do not put excessive weight on the edges of the columns
- Dust tiled sections with soft lint free cloth and timber with a dampened, lint-free cloth. These tiles are water resistant, but care should be taken to avoid use of abrasives when cleaning as these can damage the finish. As with any natural timber product, wood can be susceptible to movement with change in conditions
