HONEY HIVE HELPER™

Attract honey bees colonies to a hive with this pheromone lure. Easy to use – just toss 1 lure into the bottom of an empty hive. 365-day lures.

Model#	Description	Case	MSRP
PWL594	Lures (3-Pack)	10	23.99

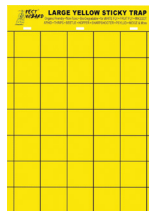

COMPLETE SCIENTIFICALLY DESIGNED SYSTEM

All forms of Pest Wizard® *MessyLess Adhesive™* traps and pheromone lures are scientifically designed and tested to be combined in a variety of ways as a **Completely Integrated System.**

Extensive field tests of Pest Wizard® rectangle card traps have demonstrated their colors and reflectance are very attractive to a broad spectrum of indigenous and invasive insect pests.

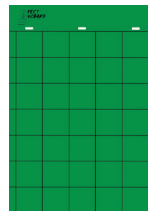

When pheromone lures are attached to these **High Capture Rate** traps, they become narrowly selective systems for trapping out and monitoring specifically targeted species.

When any Pest Wizard® *MessyLess Adhesive™* card or delta trap or trap liner becomes saturated before the lure life expires, that lure can be moved to a fresh Pest Wizard® trap or liner.
