MOUNTING (PHYSICAL INSTALLATION)

The dartboard should be hung on a wall hook, with the bulls-eye 172cm (68") above the floor. Darts are supposed to be thrown from a distance of about 237cm (93.5"), so be sure there is about 3m (10') of open floor space in front of the board.

GENERAL RULES OF DARTS

1. Hang the board as shown in the diagram.
2. To decide who plays first, each player, or one from each team throws one dart. The player hitting closest to the bulls-eye starts the game.
3. Players each throw three darts.
4. Only darts that remain in the dartboard count towards the players score.

TOURNAMENT DART RULES

1. Each side starts with 301 points. The method of scoring is to subtract each score from the remaining total. The score of 301 is used mainly for games between two individuals. For team play the opening score should be increased to 501 or 1001 depending on team size.
2. Tournament games are usually started straight, but as an alternative, can be played by starting with any double.
3. The first to reduce his score exactly to zero is the winner.
4. To finish, a double (or bullseye) which exactly reduces the score to zero must be thrown.
5. For the purposes of Rules 3 and 4, Bullseye counts as double 25.
6. If a greater score is thrown than is required to reduce the remaining score exactly to zero, then none of the three darts count for that throw and the score remains as it was before that particular throw was taken.
7. Each game is called a 'leg'. Three 'legs' make a match and the ultimate winner is the player who first wins 2 'legs'. This can be varied.
