Score for the JD-Next Exam Taken on December 9, 2023

> **Rolling** – only the most recent 3 years of data will be included.

> This section provides outcomes and confidence intervals for key metrics across the current and rolling three-year terms, providing important additional context for test takers to better understand their scores in-relation to available data. The Winter 2023-2024 test administration is the first set of test data represented on this report, as it was the first test administration delivered in a high stakes environment.

> **Individual score** is in the dark blue box, this is based on a scale of 400-1000, in 10-point increments.

December 2023 Fall/Winter

840

400 ———————————— 1000

91st Percentile

Rolling Three Year Average

840

400 ———————————— 1000

94th Percentile

> **Rolling Three Year Average** – If as a test taker you test multiple times within a 3-year timeframe, your test scores from that period will be averaged.

> **Percentile** is based on individual performance compared to other test takers. Scores are based on multiple choice questions (the essay is unscored).

> As a rule of thumb, you can take an average of these percentiles to determine performance.

> **Percentile**– Your percentile ranking based on test takers to date.

> **Actual** is the best estimate of the means and medians.

> **95% Confidence Interval** – you can be 95% confident that the estimate falls within this range.

Aggregated Test Performance

	Actual	95% Confidence Interval
Current Term, Mean	700	670-730
Current Term, Median	710	660-760
Rolling Three Year, Mean	700	690-710
Rolling Three Year, Median	710	690-730

The number of stars assigned to each learning objective indicates a student's performance on that objective. A higher number of stars indicates a higher level of performance, with 4 stars indicating an area of strength.*

*These ratings can be used to inform applicants and law students about areas which they should consider strengthening to improve their law school performance. You should not use these ratings to make admissions, financial awards, or other high-stake decisions. Instead, you should use the JD-Next exam total score (400-1000) for those purposes.

Please contact jd-next@aspenpublishing.com if you have any questions.
