

# Climate Action Kits - Full Kit

The all-in-one Climate Action Kit contains all of the components and building blocks to build more than a dozen climate action-themed robotic coding projects.

## Robotic Components

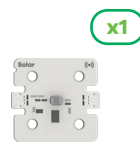

Breakout Board with Battery <sup>(1)</sup>

Moisture Sensor

Touch Sensor

Solar Sensor

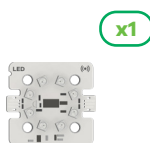

Sonar Sensor

Line Sensor with Ball & Caster

Rotary Dial

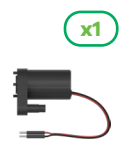

LED Light

Continuous Servo Motor

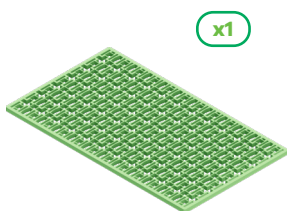

Positional Servo Motor

Water Pump

## Building Blocks

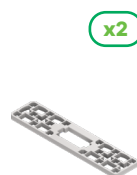

Base Plate

Long Frame

Medium Frame

Medium Servo Frame

Small Frame

Thin Frame

Circle

Cube Connector

Corner Connector

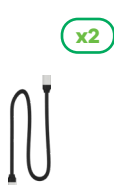

Back-to-Back Connector

Component Backing Connector <sup>(2)</sup>

## Additional Parts

Long Cable Connector

Short Cable Connector

USB Cable

Wheel

Butterfly Clips

Removal Tool

Water Tubing

Screw Driver

Cable Adapter

(1) micro:bit V2 required, sold separately  
(2) Pre-assembled
