

Little Savage®

The uncompromising and natural choice for our children

Little Savage studio and show room is placed in the heart of Copenhagen, from where our collection is designed. Little Savage was launched in 2017 with a mission to bring nature into the cities, by producing natural, certified, and comfortable high-quality, long-lasting children's products for repeated use over generations.

Choosing materials has the greatest impact on the environment and by choosing carefully we make a difference. At Little Savage, we do our best to produce and trade biodegradable products without chemical effects on your child.

Our 100% OEKO-TEX STANDARD 100 merino wool, without blend products, is biodegradable. We do not produce seasonal products, but children's clothing in a timeless design that can be used year-round and for several seasons. It's all about slow fashion and sustainability in choosing natural and non-toxic materials for our kids, buying less, and choosing right. - to quote Vivienne Westwood.

Big reasons to wear Little Savage every day and all year round:

1. Thermo genius: Cool when it's hot, warm when it's cold
2. Tough cookie: Wear them lots, machine wash them whenever
3. Skin loving: Super smooth, breathable, and hypoallergenic
4. All the toasty: Without the bulk feeling and itchy labels

We have chosen to produce in Denmark and the EU to reduce the environmental impact of transport and to reduce waste by only producing accurately. Therefore, we can quickly navigate and change production according to your demand.

Little Savage kids play free and without limitations.

Play Suit

Sizes: 62/68 , 74/80 , 86/92, 98/104

Body - No Sleeves

Sizes: 50/56 , 62/68 , 74/80 , 86/92

Sizes: 62/68 , 74/80 , 86/92 , 98/104

The Brand

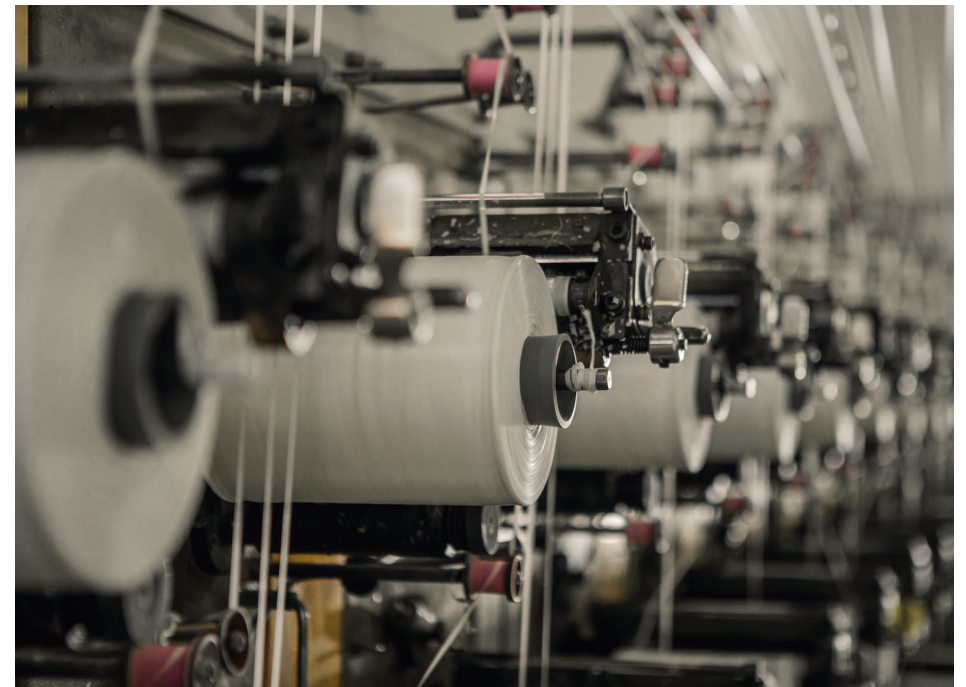

Little Savage launched in 2017 with a mission to bring nature to the homes by producing and negotiating natural, certified, and comfortable children's fashion of high quality. Little Savage has developed our own Super Soft, stretching 100% merino wool with long durability, so it can be used again and again. Every piece of our merino wool clothing is OEKO-TEX® STANDARD 100 cert. nr. 84916 DTI certified. It is high comfort all year clothing so that our children can climb trees and play in mud without worries.

The Idea

Little Savage is for the parents living in a big city, who wants the good quality of the countryside for their small ones. It is all about the freedom to move around and play. Simply allowing kids to be kids. The identity has to show Little Savages rebel-side as well as their high-end quality. It is playful yet serious.

The Production

We work together with Danish BSCI and FAIRWEAR audited factories in Denmark and Europe. This ensures that Little Savage merino wool is produced under good and safe conditions - which are of course continuously checked by an independent third party. We do not accept mulesing - our yarn suppliers only use wool that is documented to be 100% mulesing-free. In addition, there are clear requirements for compliance with the Five Freedoms, which are the OIE's (World Organization for Animal Health) standards for animal welfare.
