PLEASE READ:

COLOURS SHOWN IN THE CHART ARE TO BE USED AS A **GUIDE ONLY**

- PMS Colour matching is available, but may incur an extra cost.
- Colour variations can occur depending on calibration of computer screens.
- Some colours do not work well together. They may work on paper, but can be hard to distinguish when printed and absorbed into textured carpet.
- If there isn't enough contrast between colours it will be difficult to differentiate when printed next to each other.
- Light background colors should be avoided due to their tendency to show dirt on the mat more than a darker or neutral tone.
